EAI Estimated Annual Income (EAI) & Estimated Yield (EY) - EAI is an estimate of annual income for a specific security position over the next rolling 12 months. EY is calculated by dividing the & EY current EAI for a security position by its statement closing date market value. EY reflects only the income generated by an investment; it does not reflect changes in its price, which may fluctuate. For certain types of securities, EAI and EY could include the return of principal or capital gains which would render them overstated. EAI and EY are estimates provided for informational purposes only and should not be relied on for making investment, trading, or tax decisions. There is no guarantee that your investments will actually generate the EAI or EY presented. Actual income and yield might be higher or lower. EAI and EY should not be confused with a security's 30-day Yield or 7-day Yield, if provided, as such yield quotations reflect the actual historical performance of a security. For additional information, including calculation details, refer to the "Additional Information and Endnotes" section at the end of your statement.

Total Cost Basis does not include the cost basis on core, money market or other positions where cost basis is unknown or not applicable

This table presents the estimated monthly interest and dividend income and return of principal that your current holdings may generate over the next rolling 12 months. The cash flows displayed are estimates provided for informational purposes only and there is no guarantee that you will actually receive any of the amounts displayed. These estimates should not be relied upon for making investment, trading or tax decisions. The estimates for fixed rate domestic bond and CD income are calculated using the security's coupon rate. The estimates for domestic common stock and mutual fund income are calculated using an indicated annual dividend (IAD). The IAD is an estimate of a security's dividend payments for the next 12 months calculated based on prior and/or declared dividends for that security. IADs are sourced from third party vendors believed to be reliable, but no assurance can be made as to accuracy. There are circumstances in which these estimates will not be presented for a specific security you hold. **Please refer to Help/Glossary on Fidelity.com for additional information on these calculations.**

Bond & CD Income includes interest payments for fixed rate bonds and Certificates of Deposit (CDs).

Bond & CD Principal includes maturing principal payments for CDs and the following bonds: fixed rate, floating rate, variable rate, discount, and zero coupon

Stock Income includes estimated dividend payments for common stock, ADR's, and REITs.

Mutual Fund Income includes estimated dividend payments for Fidelity and non-Fidelity mutual funds

This table does not include cash flow from the following securities: preferred stocks, international stocks, exchange trade products (ETF's & ETN's), UITs, variable rate bonds, and international bonds, but may be included in future enhancements
