Part I, Line 3c - Charity Care Eligibility Criteria (FPG Is Not Used)	Patients 401% of poverty level and greater do not qualify for financial assistance. However, all uninsured patients qualify for a 20% "no insurance" discount, regardless of income.

Form and Line Reference	Explanation
Part I, Line 6a - Related Organization Community Benefit Report	Community Benefit Information is included in the Community Benefit Report for WellSpan Health

Form and Line Reference	Explanation
Part III, Line 2 - Methodology Used To Estimate Bad Debt Expense	The number was calculated using the cost to charge ratio factor applied against actual patient bad debt write-offs. These numbers are included after all efforts have been exhausted to determine if the patient meets our charity care write-off policy based on federal poverty levels.

Form and Line Reference	Explanation
Part III, Line 3 - Methodology of Estimated Amount & Rationale for Including in Community Benefit	The estimate of bad debt attributable to charity care policy was calculated by dividing the bad debt amount that was originally coded bad debt but later found to qualify as charity care by the amount coded to the charity care write-off codes. This ratio is applied to the bad debt cost factor expense.

Form and Line Reference	Explanation
Part III, Line 4 - Bad Debt Expense	The Company provides an allowance for doubtful accounts for estimated losses resulting from the unwillingness or inability of patients to make payments for services. The allowance is determined by analyzing specific amounts and historical data and trends. Patient accounts receivable are charged off against the allowance for doubtful accounts when management determines that recovery is unlikely and the Company ceases collection efforts. Losses have been consistent with management's expectations in all material respects.

Form and Line Reference	Explanation
Part III, Line 8 - Explanation Of Shortfall As Community Benefit	WellSpan Surgery and Rehabilitation Hospital (WSRH) maintains records to identify and monitor the level of charity care and community service it provides. These records include the amount of charges forgone based on established rates for services and supplies furnished under its charity care and community service policies and the estimated cost of these services. Payments from Medicare are generally less than WSRH's costs of providing the service.

Upon final PARO (Payment Assistance Rank Ordering) scoring, if a patient qualifies for presumptive charity, their account would not be forwarded to any third party collections. The primary agencies will work the accounts for 6 months or until they feel it is uncollectable and return the account. The accounts are forwarded to secondary agencies from the primary agencies. Closed and Return Reports. The financial class is changed to Bad Debt Other after the Closed and Return Reports are received from the Secondary Agency. Part VI - Needs Assessment	WellSpan Health and its entities have a long history of understanding and responding to the needs of the communities and populations it serves. This commitment was strengthened in 1998 when, in partnership with the Healthy York County Coalition, WellSpan conducted its first Community Health Needs Assessment (CHNA). Five subsequent CHNAs were conducted in 2000, 2005, 2008, 2012 and 2015. These assessments one method for collecting diverse information on a community and which involves surveying a representative sample of community members on their demographics, chronic health conditions, lifestyle behaviors, finances, access to health services, and related topics have been administered before the Affordable Care Act (ACA) requirement. As previously noted, the WellSpan CHNA process, which includes survey development, data collection and analysis, and result dissemination, was led by both county-level health coalitions Healthy Adams County and the Healthy York County Coalition. These coalitions receive financial support from WellSpan Health and its entities, and other community stakeholders. The following community organizations partnered to provide guidance and support to the 2015 CHNA: County of York, Family First Health, Hanover Hospital, TrueNorth Wellness Services, United Way of York County, York City Health Bureau, York College of Pennsylvania, and, York County Community Foundation. Additional consulting support was provided through a contract with the Floyd Institute for Public Policy at Franklin and Marshall College. Dr. Berwood Yost, Institute Director and Project has an extensive background conducting and analyzing community and corporate surveys, and has been integral to the prior two CHNAs (2008 and 2012). This collaboration of community stakeholders determined the survey questions to be asked of the community, discussed data collection methodology, including sample size and method of obtaining data, reviewed the raw data and supporting charts/graphs, identified potential community health priorities, and, developed the process by which results and priorities were to be shared with the community. The 2015 CHNA planning process engaged a wide range of community organizations serving the diverse interests of all partners without burdening CHNA respondents with too many questions. Committee members reviewed questions asked in the 2012 CHNA and edited accordingly based on the current health care environment and areas of interest. Survey questions were derived from the Behavioral Risk Factor Surveillance System (BRFSS), a validated survey tool utilized by the Centers for Disease Control and Prevention (CDC), and organized into four categories: healthcare access, behavioral risk, health conditions, and prevention behaviors and context. A representative sample of 1,028 adults residents in York County were interviewed between October 27 and December 12, 2014. Supplemental secondary data from the Robert Wood Johnson Foundation (RWJF) annual County Health Rankings and from the Pennsylvania Department of Health was compiled and integrated into the 2015 CHNA. Data collected and analyzed by the Floyd Institute for Public Policy included breakdowns by age, gender, geographic area, race/ethnicity, and income level, and enabled the development of charts/graphs focused on: quantity of residents affected, health risks and disability-adjusted life years, correlates of obesity and depression (two significant health priorities), health disparities, and, social determinants of health impact. This information is included in the 2015 Community Health Needs Assessment Summary Report available at www.wellspan.org. In 2015, CHNA results and related priorities identified by the Healthy York County Coalition were shared with the system-wide Planning Committee at WellSpan Health. This Committee is comprised of community members and leaders that represent each of WellSpan's primary entities and service areas, in addition to corporate leadership. Planning Committee members reviewed the CHNA data, adopted HYCCs priorities of adult overweight/obesity, depression/mental health, and maternal/child health while also identifying two additional priorities pertinent to WellSpan Health: access related to gaps in care caused by high-deductible insurance plans and the emerging opioid misuse and abuse issue facing the community. These five priorities and associated data were subsequently presented to the WellSpan Specialty Services Board, the governing body for WellSpan Surgery & Rehabilitation Hospital, for their adoption. Board members discussed the data and identified priorities within the context of existing staffing and financial resources, current and future entity initiatives, and community partnership opportunities to address systemic community change.
