Periodically throughout the year, management assesses the adequacy of allowance for uncollectible accounts based upon historical write off experience by payor category, including those amounts not covered by insurance. The results of this review are then used to make any modifications to the provision for bad debts to establish an appropriate allowance for uncollectible accounts. After satisfaction of amounts due from insurance and reasonable efforts to collect from the patient have been exhausted, the organization follows established guidelines for placing certain past due patient balances with collection agencies, subject to the terms of certain restrictions on collection efforts as determined by the organization. Accounts receivable are written off after collection efforts have been followed in accordance with the Organization's policies."
