Planning workgroups consisting of community partners are formed to define the community and its needs through review of healthy people initiatives, census documents, and local government health and welfare agencies. When a need is identified, the Hospital develops a plan to implement a program either through community collaboration or individually. Outcomes from the programs are measured and considered in subsequent Community Health Needs Assessments. Community benefit plans are presented to senior leadership and board members to ensure the findings are incorporated into the Organization's strategy and policy development.
