Supporting Organizations (continued)

Section B. Type I Supporting Organizations

	Yes	No
1 Did the directors, trustees, or membership of one or more supported organizations have the power to regularly appoint or elect at least a majority of the organization's directors or trustees at all times during the tax year? <i>If "No," describe in Part VI how the supported organization(s) effectively operated, supervised, or controlled the organization's activities. If the organization had more than one supported organization, describe how the powers to appoint and/or remove directors or trustees were allocated among the supported organizations and what conditions or restrictions, if any, applied to such powers during the tax year.</i>		
2 Did the organization operate for the benefit of any supported organization other than the supported organization(s) that operated, supervised, or controlled the supporting organization? <i>If "Yes," explain in Part VI how providing such benefit carried out the purposes of the supported organization(s) that operated, supervised or controlled the supporting organization.</i>		

Section C. Type II Supporting Organizations

	Yes	No
1 Were a majority of the organization's directors or trustees during the tax year also a majority of the directors or trustees of each of the organization's supported organization(s)? <i>If "No," describe in Part VI how control or management of the supporting organization was vested in the same persons that controlled or managed the supported organization(s).</i>		

Section D. All Type III Supporting Organizations

	Yes	No
1 Did the organization provide to each of its supported organizations, by the last day of the fifth month of the organization's tax year, (1) a written notice describing the type and amount of support provided during the prior tax year, (2) a copy of the Form 990 that was most recently filed as of the date of notification, and (3) copies of the organization's governing documents in effect on the date of notification, to the extent not previously provided?		
2 Were any of the organization's officers, directors, or trustees either (i) appointed or elected by the supported organization(s) or (ii) serving on the governing body of a supported organization? <i>If "No," explain in Part VI how the organization maintained a close and continuous working relationship with the supported organization(s).</i>		
3 By reason of the relationship described in (2), did the organization's supported organizations have a significant voice in the organization's investment policies and in directing the use of the organization's income or assets at all times during the tax year? <i>If "Yes," describe in Part VI the role the organization's supported organizations played in this regard.</i>

Form and Line Reference	Explanation
Part I, Line 3c	Assets will be considered along with the patient's income to determine eligibility for the Financial Assistance Program To be eligible, reportable assets may not exceed \$15,000 for a household of one (1), or \$25,000 for a household of two (2) or more Assets may include, but are not limited to, such items as checking and savings accounts, IRA's, 401(k)'s, value of additional cars that exceed the number of working members in the household, equity in recreational vehicles and additional property, etc

Form and Line Reference	Explanation
Part I, Line 6a	The organization's community benefit information is included in the consolidated Essentia Health (employer identification number 20-0360007) annual report which is made available to the public at http://www.essentiahealth.org/Main/Annual-Report.aspx Essentia Health, headquartered in Duluth, Minnesota, is the parent of a fully integrated health system serving patients in Minnesota, Wisconsin, North Dakota and Idaho

Form and Line Reference	Explanation
Part I, Line 7	The cost to charge ratio derived from Worksheet 2, Ratio of Patient Care Cost-to-Charges was used to calculate the costs for the following community benefits Charity Care and Unreimbursed Medicaid Actual costs were used for the remainder of the community benefits reported

Form and Line Reference	Explanation
Part I, Ln 7 Col(f)	Bad debt expense that was subtracted from total expense to obtain the % of community benefit to total expense amounted to \$8,370,665

Form and Line Reference	Explanation
Part II, Community Building Activities	The majority of the community building activities reported are physician recruitment expenses. The hospital facility is located in a federally-designated medically underserved area and as such includes physician recruitment as a community building activity per the recommendation of the Catholic Health Association Community Benefit Guide.

Form and Line Reference	Explanation
Part III, Line 2	Discounts, charity care, and bad debt expense are accounted for as reductions to revenue. Bad debt expense on patient accounts would be identified as any balance on the account, less any previous payments and discounts, that has aged and is absent of any payments. If, during the collection process, it becomes known that the patient qualifies for charity care, the amounts included within bad debt expense would be reclassified to charity care.

Form and Line Reference	Explanation
Part III, Line 3	Essentia Health St Mary's Medical Center provides both full and partial charity care through its traditional application process. Full charity care is a complete write-off of eligible gross hospital and clinic charges while "partial" is a portion of eligible charges. Each are determined respectively based on the patient's income in relation to the Federal Poverty Guidelines. Essentia Health also recognizes that it is not feasible, or sometimes necessary, for all patients to complete financial assistance applications and provide documentation required through the traditional process. Essentia Health St Mary's Medical Center implemented an alternative documentation and presumptive process using a tool that identifies accounts that automatically qualify for charity care and reclassified those accounts to charity care allowance. As a result, we estimate \$0 of patient accounts written off to bad debt would qualify for charity care. Essentia Health St Mary's Medical Center is a part of a larger organization, Essentia Health. Essentia Health and its member organizations incorporate the cost of bad debt as a community benefit. As a tax exempt hospital, we must provide the necessary services regardless of the patient's ability to pay for that care. In doing so, Essentia Health makes quality patient care available to all in our community, regardless of their economic means.

Part III, Line 4	Page 13 of the audit contains the footnote describing the organization's bad debt expense

Form and Line Reference	Explanation
Part III, Line 8	Reconciliation for Medicare Shortfall between Total Medicare Program and What is Allowed on the Cost Report The hospital facility's total Medicare shortfall is \$35,025,826, of which a shortfall of \$15,191,977 (consisting of \$119,912,494 revenue and \$135,104,471 cost) is included in Part III, Section B, Lines 5-7, and a shortfall of \$19,833,849 (consisting of \$31,032,352 revenue and \$50,866,201 cost) represent all other Medicare services not included in the annual cost report The costing methodology used in determining the Medicare Allowable Cost reported in the organization's Medicare Cost Report as reflected in the amount reported in Part III, Line 6 The methodology used in determining the reported Medicare Allowable Cost begins with the hospital's general ledger system The costs are obtained from the general ledger and then adjusted and reported in accordance with Centers for Medicare Services (CMS) "cost finding" guidelines as published in their Provider Reimbursement Manual Once the Medicare allowable costs are determined from the hospital's cost report, any costs attributed to subsidized health services, and Medical Education, are removed and reported separately Explanation for any prior year settlements for Medicare-related services in the current tax year Each Essentia Health hospital is required to file a Medicare cost report 5 months after the close of their fiscal year The cost report provides Medicare with information that is used to determine utilization and spending trends but also is used to set future payment rates for most Medicare services If the interim payments paid to a hospital are higher or lower than the filed cost report allowable reimbursement there will be a settlement for that fiscal year This can be due to changes in utilization or cost of providing services for Critical Access Hospitals (CAH) or differences between interim and final payment factors for Disproportionate Share, Bad Debts, or Indirect Medical Education for non-CAH hospitals An estimate for these settlements is recorded at the close of the fiscal year If the estimate varies from the final settlement received 6-7 months after the fiscal year ends then these amounts are recorded as prior year Medicare revenue The extent to which any shortfall reported in Part III, Line 7 should be treated as a community benefit and the rationale for the organization's opinion Essentia Health St Mary's Medical Center is a part of a larger organization, Essentia Health Essentia Health and its member organizations incorporate the full value of the Medicare shortfall as a community benefit The rationale for the organization's opinion is providing care for the elderly and serving Medicare patients is an essential part of the community benefit standard Medicare, like Medicaid, does not pay the full cost of care and it is likely to get worse Many Medicare beneficiaries are poor and are eligible for Medicaid in addition to Medicare Medicare underpayment must be shouldered by the hospital in order to continue treating the community's elderly and poor These underpayments represent a real cost of serving the community

Form and Line Reference	Explanation
Part III, Line 9b	The policies and procedures for internal and external collection practices take into account the extent to which the patient qualifies for Essentia Health's Financial Assistance Policy (FAP) and financial assistance, a patient's good faith effort to apply for a governmental program or for financial assistance from Essentia Health, and the patient's good faith effort to comply with his/her payment agreements. The organization offers extended payment plans to eligible patients and will not impose liens on primary residences nor report patients to a credit rating agency for outstanding patient bills. The organization will not charge a patient gross amount of charges for any uninsured treatment. Uninsured discounts will be applied to the gross charges prior to any financial assistance or other discounts. At any time the organization recognizes that a patient may be eligible for State or Federal programs, a representative will assist the patient in obtaining information about these programs or provide contact information for these programs. The organization contracts with an outside patient advocacy agency, which may provide assistance to the uninsured patient in applying to certain State and Federal programs. At any stage of the patient experience and up through the collection process, the patient may express a concern that they are unable to pay their bill in full or meet the payment plan requirements. At that time, the patient will be given every opportunity to complete and submit an application for financial assistance. The organization trains its outside debt collection agencies and attorneys about the FAP and how a patient may obtain more information about the FAP or submit an application for financial assistance. The organization requires its outside collection agencies and attorneys to refer patients who may be eligible for financial assistance to Essentia Health. If a patient has submitted an application for financial assistance after an account has been referred for collection activity, the organization and its outside debt collection agencies suspend all collection activity until the patient's financial assistance application has been processed and Essentia Health has notified the patient of its decision.

Part VI, Line 4	Community Information Essentia Health St Mary's Medical Center is located in Duluth, MN Essentia Health St Mary's is a part of Essentia Health, which is defined in Part VI, line 6 Essentia Health St Mary's Medical Center operates 1 hospital that serves the St Louis County area The overall community is classified as suburban Essentia Health St Mary's Medical Center covers a service region of approximately 465,000 people The service region age distribution is 23% under the age of 18, 58% between the ages of 18 and 65, and 19% over the age of 65 The racial makeup of the service region is 92% Caucasian, 1% African American, 1% Asian, 1% Hispanic, and 5% other, predominantly Native American The gender split ratio is 50% women and 50% men The average income for the service area is approximately \$46,000 Approximately 9.2% of the population falls below the federal poverty guidelines Essentia Health St Mary's Medical Center, along with Essentia Health is committed to serve patients regardless of their ability to pay Approximately 1.4% gross revenue dollars were from self-pay patients In addition, approximately 18.6% of their gross revenue dollars were Medicaid recipients St Louis County is currently designated as a Medically Underserved Area As mentioned above, Essentia Health St Mary's Medical Center is part of Essentia Health Essentia Health staffs hospitals and clinics in federally-recognized underserved areas and supports the health of its communities through an active outreach program that brings specialists like oncologists, cardiologists, neurologists and others into its smaller communities This eliminates barriers to care for many patients, particularly those who are elderly, living on low incomes, or are faced with other challenges that make it difficult to travel long distances for care There are 13 other hospitals outside of the Essentia Health umbrella that service the community

Form and Line Reference	Explanation
Part VI, Line 5	Promotion of Community Health Essentia Health St. Mary's Medical Center's board of directors is composed mainly of volunteer representatives from the communities it serves. Essentia Health St. Mary's Medical Center has an open medical staff, so any qualified physician of the community is allowed to apply. All applicants that apply must meet the credentialing standards and be approved by our governing board in order to come and provide services at Essentia Health. In addition, the hospital facility provides on-site clinical experiences for medical students, nurses, therapists, technicians and other healthcare vocations. We reinvest in the organization by acquiring the latest state of the art equipment and by investing in programs that are needed in our community. In addition to the activities listed in Part I, Line 7 as well as Part V, Section B, Line 11, Essentia Health St. Mary's Medical Center encouraged the community to get outside and be active through the support of local races and other physical activity centered events. Additionally, the hospital enhanced mental fitness in the community through its support of services that enhance the quality of life for individuals who are aged, chronically ill, or disabled, and their families and caregivers, as well as supported opportunities for youth to enrich their lives through science based activities. Additionally, the hospital helped youth development through contributions to a program that enhances student educational success and safety. The hospital supported activities and programming that works to address the social determinants of health in the neighborhoods of Duluth, including housing, food access, racism, education and healthcare access. Lastly, they engaged communities in coming together and creating social connectivity through support of various local events, fundraisers and outings, many of which involved physical activity and supported businesses that play a major role in the health of the community. Essentia Health St. Mary's Medical Center is a part of Essentia Health, a fully integrated health system with facilities in Minnesota, Wisconsin, North Dakota and Idaho. As a non-profit organization, Essentia Health reinvests surplus revenues into medical training, programs and technology that improve patient care. Essentia Health provides services predominantly in rural communities and is committed to eliminating geographic barriers to care. Many of Essentia Health's clinics and community hospitals are located in communities that are federally recognized as being medically underserved. We invest in facility upgrades, technology and staffing that enhance care in these communities to ensure patients can receive as much care as possible close to home - a vital component of community health in areas where residents are often elderly, living on limited incomes and restricted in their transportation options. Residents of geographically isolated communities served by Essentia Health also benefit from telehealth services that provide local access to specialists and specialty services usually available only in larger urban areas. Services are available in more than 20 specialties, ranging from cardiology and behavioral health to speech therapy and medical weight loss. Patients treated in a number of Essentia Health emergency departments benefit from telehealth connections that allow community hospital physicians and nurses to communicate with trauma and other specialists located in Essentia Health's larger hospitals. Essentia Health was one of the first Accountable Care Organizations (ACO) in the country to receive the highest level of accreditation from the National Committee for Quality Assurance (NCQA). As an ACO, Essentia Health is committed to meeting the Triple Aim of improving care and population health, while reducing the overall costs for patients and society as a whole. One of the newest programs under the ACO is a Population Care Management team of registered nurses who carefully review medical histories of high-risk patients on government assistance programs to ensure they are getting care needed to keep them healthy and out of the hospital. Patients with multiple high-risk conditions (e.g. diabetes, congestive heart failure, mental health issues) and who have not recently received care are connected with Primary Care clinicians, nurses, specialists, therapists and others who can provide additional care, therapy or education. The goal is improving patients' health and reducing the likelihood of hospitalizations or other high-cost care. Since a majority of healthcare costs are directly related to caring for patients who have chronic conditions, Essentia Health is committed to improving health outcomes for patients, especially those with chronic diseases. For example, Essentia Health now offers one-on-one tobacco cessation counseling at 37 sites across Minnesota, Wisconsin and North Dakota. These sites cover a wide geography, from small rural communities to large urban centers.

Form and Line Reference	Explanation
Part VI, Line 5	ies to larger urban areas, and often serve people living on low and moderate incomes. In cases where these services are not covered by private or government insurance or programs, Essentia Health covers the remaining costs. This is true of other programs. Essentia Health supports the health of our communities through active research and clinical trials through the Essentia Institute of Rural Health (Institute). The Institute conducts clinical, translational and health services research with a primary focus on the needs of rural Americans. Various Essentia Health organizations contributed approximately \$4.25 million in support to the Institute during the past year. Essentia Health is also a primary supporter of medical education, particularly in the area of rural primary care. Essentia Health physicians serve as faculty and preceptors for the University of Minnesota School of Medicine in Duluth, MN. Essentia Health also provides funding, administrative support and residency opportunities for the Duluth Family Practice Residency Program. This program is vital in addressing the growing shortage of primary care physicians in rural communities.

Form and Line Reference	Explanation
Part VI, Line 6	Affiliated Health Care System Essentia Health St. Mary's Medical Center is part of Essentia Health, a fully integrated health system with 15 hospitals, over 60 clinics, seven long-term care facilities, three assisted living facilities, three independent living facilities, five ambulance services and one research institute in four states—Minnesota, Wisconsin, North Dakota and Idaho. The health system serves a predominantly rural population whose median incomes generally fall below averages of the states where they live. The presence of our clinics and hospitals ensures that people with few economic resources don't have to drive an hour or more to receive basic (and in some cases lifesaving) medical care. In addition to staffing hospitals and clinics in federally recognized underserved areas, Essentia Health supports the health of communities through active outreach programs that bring oncologists, cardiologists, neurologists and others into small hospitals and clinics. Essentia Health's size and integrated structure also allow the organization to extend services like chemotherapy, congestive heart failure management, wound care and hospice care to smaller communities. Patients are able to travel seamlessly between Essentia Health's smaller community clinics and its larger specialty care centers thanks to significant investments in electronic health records (EHRs). Every Essentia Health hospital and clinic is linked to this system, allowing clinicians to share everything from lab results and radiology images to notes on clinic visits, hospital stays and services like physical rehabilitation. The EHR is also an increasingly valuable tool for patients and their families, thanks to MyHealth, which offers patients secure, 24/7 online access to their medical record. MyHealth also allows patients to contact their physician or clinic, schedule appointments and order medication refills. There are also established protocols that allow parents to access their children's medical records (with child's permission after age 11) and for adult patients to authorize access for family or friends who assist with caregiving. These services are all offered at no cost to patients and their authorized family, friends and caregivers. Essentia Health also promotes the health of all of its communities through adherence to evidence-based best practice standards and clinical quality goals designed to ensure that patients receive the same high standard of care at any Essentia Health hospital or clinic. The Essentia Institute of Rural Health (Institute) actively supports community health through its translational and health services research with a primary focus on the needs of rural Americans. The Institute also sponsors a number of conferences and other educational events, open to all medical professionals in the region, to ensure that rural clinicians have access to current medical education and training close to home. In addition to work at the system level, Essentia Health's hospitals and clinics play additional roles in promoting health within their communities. Each of Essentia Health's 15 hospitals conducts a community health assessment to determine the unique health needs of community residents. These assessments, which are based on input from a broad range of community residents and stakeholders, are the basis for action plans aimed at addressing the community's most pressing health needs. Most recently, topics of concern have included eliminating social and economic barriers to health and wellness, improving mental health services and awareness, and addressing obesity and creating opportunities for fitness. These issues are then addressed through collaboration with private business, government agencies and other non-profits. Essentia Health employees contribute directly to the health and wellness of their communities by volunteering in programs ranging from Habitat for Humanity to United Way food and clothing drives. They are active fundraisers for health-related organizations in their communities, like local chapters of the American Heart Association and March of Dimes. Essentia Health encourages and supports these volunteer efforts in a variety of ways, including sponsorships, financial contributions and volunteer recognition. We also support community health through six foundations and through corporate contributions that focus on programs and services, like after-school meal and tutoring programs or respite services for caregivers of loved ones with dementia, that benefit the overall health of the communities we serve.

Return Reference	Explanation
Form 990, Part VI, Section A, line 4	Significant Changes to Governing Documents During the fiscal year ended June 30, 2016, the Bylaws of Essentia Health St Mary's Medical Center (SMMC) were amended to modify the board of directors to consist of the same individuals serving on Essentia Health East's board of directors and to specify that, with the exception of the Administrator, the officers of SMMC shall be the individuals holding the same offices for Essentia Health East. Additionally, the definition of "supermajority vote" was also amended to mean the affirmative vote of eighty percent of the Board of Directors. Lastly, the Benedictine Sisters Benevolent Association revised their reserved powers creating a Sponsor Council and now delegates some of the powers to the Council, SMMC's bylaws were consequentially amended to reflect that change.
