Part III Statement of Program Service Accomplishments

Check if Schedule O contains a response or note to any line in this Part III ☐

1 Briefly describe the organization's mission

The Climate Group (TCG) is an independent tax exempt organization that works with government and business leaders to advance the smart policies and technologies needed to cut global green house gas emissions. Together, we aim to unlock a clean industrial revolution, a low carbon economy that will unleash a new wave of wealth and job creation.

2 Did the organization undertake any significant program services during the year which were not listed on the prior Form 990 or 990-EZ? ☐ Yes ☒ No
If "Yes," describe these new services on Schedule O

3 Did the organization cease conducting, or make significant changes in how it conducts, any program services? ☐ Yes ☒ No

If "Yes," describe these changes on Schedule O

4a (Code) (Expenses \$ 886,225 including grants of \$ 100,000) (Revenue \$ 2,305)

The Climate Group successfully achieved significant objectives in FY 15/16 increasing the number of state and regional governments committing to new climate efforts (such as reporting on their emissions), increasing the number of corporates joining our 100% renewable electricity RE100 campaign, launching EP100 as a new corporate campaign in which companies double their energy productivity, and delivering another impactful Climate Week NYC. Highlights of our achievements include States & Regions * We celebrated the 10-year anniversary of our States & Region Alliance with our largest ever General Assembly meeting at COP21 in Paris. Forty Governors, Premiers and Ministers from 30 governments from around the world participated. We were also pleased to welcome seven new governments to the Alliance during 2015/16, including three from the US (Oregon, Washington, and Vermont) * We supported the launch of the 'Under2 MOU' which commits signatory governments to limit greenhouse gas emissions to 2 tons per capita or 80-95% below 1990 levels by 2050. Led in the US by the State of California, a total of 135 sub-national governments across 32 countries and 6 continents had committed to the Under2 MOU by June 2016, making it the largest initiative of its type in the world. The Climate Group was announced as the Secretariat for the Under2 Coalition at COP21 * At COP21 we also launched the first ever 'Compact of States and Regions Disclosure Report'. This provides a transparent account of progress towards greenhouse gas reduction targets set by state and regional governments. The report was commended by UN Secretary-General Ban Ki-Moon, who attended the launch. A total of 44 governments, including 6 US states, had reported to the Compact by the end of 2015, representing more than 325 million people and accounting for one-eighth of the global economy (\$10.5 trillion). Collectively, the targets set by the reporting governments will deliver emissions reductions by 2030 equivalent to China's current annual emissions. * We continued to facilitate peer-to-peer learning and best-practice sharing between state and regional governments through regular webinars and case studies. In particular, we launched the 'Energy Transition Platform', which supports 11 highly industrialised, carbon-intensive states, and regions including Minnesota, to accelerate the low carbon transition through developing, sharing and implementing innovative clean energy policies. * Throughout the year we convened meetings of subnational government leaders alongside major climate events including the World Summit Climate & Territories in Lyon, Climate Summit of the Americas in Toronto (July, 2015), Climate Week NYC (September, 2015), COP21 in Paris, International Green Growth Forum 2016 in Cardiff, Climate Action 2016 Summit in Washington DC (May, 2016), and the Sub-national Clean Energy Ministerial (Sub-CEM) in San Francisco (June, 2016) during CEM7 Business Actions. * Our RE100 initiative firmly established itself as one of the leading international campaigns driving corporate demand for renewable energy in FY15/16. During the year, membership more than trebled growing from 20 companies to nearly 70 by the end of June. New US-headquartered members included Microsoft, Mars, and Google. The 2016 RE100 Annual Report found that on average, companies in the campaign were half way to meeting their 100% renewable power targets. * We launched EP100, a complementary sister initiative to RE100, in May 2016 in Washington, DC at EE Global with partner ASE. Like RE100, EP100 is a corporate commitment campaign, but in this case businesses make a commitment to doubling their 'energy productivity' over a 25-year period in-line with international best practice. Energy productivity is about producing more goods and services with less energy. EP100 complements RE100, because if companies use less energy, this makes it easier and cheaper to move to 100% renewables - a connection best summed up by the phrase 'Using Better Energy, Better'. By the end of FY15/16, EP100 had secured its first member companies, including leading Indian conglomerate, Mahindra & Mahindra, and US energy efficiency specialists, Johnson Controls. * We continued to work closely with our partners in the We Mean Business (WMB) Coalition to communicate the strong support of forward-thinking businesses for an ambitious global climate agreement at COP21 in Paris. Through RE100 and EP100 (both WMB-supported initiatives) and through our communication platforms, we helped to ensure that governments and negotiators understood that businesses were strong supporters of bold climate action. The Climate Group was ranked as the third most influential NGO at COP21 by analysts 'Oxley' on the basis of our social media reach. * We successfully completed our 'Bjli - Clean Energy for All' initiative in the second half of 2015. Funded by the Dutch Postcode Lottery, this innovative two and half year program brought off-grid energy systems to some 60,000 individuals in rural India - over 10 times the original target figure. The Bjli program also investigated which kinds of business models were best suited to scaling up off-grid energy systems in India. Building on the success of Bjli, we continued investigating options for establishing a low-cost debt fund to pilot new ways of financing clean energy access in rural India. * Our partnership with Philips Lighting and the Prince Albert Foundation continued through our LED consultation events and activities with cities, financiers and the wider lighting industry. We continued to work with cities, convening experts to help address implementation challenges, as well as at national and international levels on driving LED standards and supporting policy. Our ongoing involvement in the street lighting work of the Global Lighting Challenge is helping to drive global commitments to install up to 10 billion LEDs. Our work and reputation on LEDs continued to be recognized, with regular invitations to partner on events, including with the World Bank and IFC on LED financing, and with the US National Utility Commission events to present the benefits of LEDs. In September of 2015 at Climate Week NYC, The Climate Group and Philips called for all city street lighting around the world to switch to LED by 2025. Launching a new report - "The Big Switch" - The Climate Group revealed that switching all outdoor and indoor lighting to LEDs would create energy savings of 50 - 70%, and save carbon emissions equivalent to the UK and Spain combined. The Climate Group also launched a new campaign called "LED = Lower Emissions Delivered" aimed at encouraging local cities and utilities to embrace the carbon and cost benefits of switching to LED. Summits * September 21 - 28, 2015, we held the 7th Annual 'Climate Week NYC'. Taking place just a few months before COP21, Climate Week NYC served as a key moment for the wider climate community to meet and build momentum for an ambitious outcome in Paris. To this end, we brought together leading figures such as UNFCCC Executive Secretary Christiana Figueres, US climate envoy Todd Stern, India's Environment Minister Prakash Javadekar, three-time New York Mayor Michael Bloomberg, World Bank President Dr Jim Kim and a range of C-suite executives from leading businesses such as Walmart, Nike and IKEA. Climate Week 2015 reached an estimated global audience of 1.14 billion, generated over 439 million Twitter impressions, and promoted almost 130 "affiliate events".

Return Reference	Explanation
Schedule D, Part X, Line 2 FIN 48 (ASC 740) footnote	The Corporation is exempt from federal and state taxes under Section 501(c)(3) of the Internal Revenue Service Code and Section 23701d of the Delaware revenue and Taxation Code, and is considered by the IRS to be an organization other than a private foundation. In the opinion of management, there is no unrelated business income. Accounting principles generally accepted in the United States of America (U S GAAP) prescribes recognition thresholds and measurement attributes for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. Tax benefits will be recognized only if the tax position is more-likely-than-not sustained in a tax examination, with a tax examination being presumed to occur. The amount recognized will be the largest amount of tax benefit that is greater than 50% likely of being realized on examination. For tax positions not meeting the more-likely-than-not test, no tax benefit will be recorded. Management has concluded that they are unaware of any tax benefits or liabilities to be recognized at June 30, 2016 and 2015. The Corporation is no longer subject to examination by U S federal taxing authorities and for all state income taxes through 2012. The Corporation does not expect the total amount of unrecognized tax benefits to significantly change in the next 12 months. The Corporation would recognize interest and penalties related to unrecognized tax benefits in interest and income tax expense, respectively. The Corporation has no amounts accrued for interest and penalties as of June 30, 2016 and 2015.
