Form and Line Reference	Explanation
Schedule H, Part I, Line 3c Eligibility criteria for free or discounted care	When Catholic Health Initiatives (the ultimate parent organization to St. Alexius Medical Center established its financial assistance policy it was determined that establishing a household income scale based on the HUD very low income guidelines more accurately reflects the socioeconomic dispersions among urban and rural communities in 18 states served by CHI hospitals and health care facilities. In comparing HUD guidelines to the Federal Poverty Guidelines (FPG), we find that on average HUD guidelines compute to approximately 200% to 250% (and sometimes 300%) of FPG St. Alexius Medical Center bases its financial assistance eligibility on HUD's 130% of Very Low Income Guidelines based on geography, and affords the uninsured and underinsured the ability to obtain financial assistance write-offs, based on a sliding scale, ranging from 25%-100% of charges An individual's income under the HUD guidelines is a significant factor in determining eligibility for financial assistance. However, in determining whether to extend discounted or free care to a patient, the patient's assets may also be taken into consideration. For example, a patient suffering a catastrophic illness may have a reasonable level of income, but a low level of liquid assets such that the payment of medical bills would be seriously detrimental to the patient's basic financial (and ultimately physical) well-being and survival. Such a patient may be extended discounted or free care based upon the facts and circumstances.

Form and Line Reference	Explanation
Expense Methodology	The estimated amount of the organization's bad debt expense that is attributable to patients eligible under the organization's charity care policy is approximately \$669,956. This was based off the most recent community needs assessment reported, which indicated that 12% of the population is below the Federal Poverty Guidelines. The 12% was applied to the amount of bad debt expense.

Form and Line Reference	Explanation
Schedule H, Part III, Line 4 Bad debt expense - financial statement footnote	St Alexius Medical Center does not issue separate company audited financial statements. However, the organization is included in the consolidated financial statements of Catholic Health Initiatives. The consolidated footnote reads as follows. "The provision for bad debts is based upon management's assessment of historical and expected net collections, taking into consideration historical business and economic conditions, trends in health care coverage, and other collection indicators. Management routinely assesses the adequacy of the allowance for uncollectible accounts based upon historical write-off experience by payor category. The results of these reviews are used to modify, as necessary, the provision for bad debts and to establish appropriate allowances for uncollectible net patient accounts receivable. After satisfaction of amounts due from insurance, CHI follows established guidelines for placing certain patient balances with collection agencies, subject to the terms of certain restrictions on collection efforts as determined by each facility. The provision for bad debts is presented on the consolidated statements of operations as a deduction from patient services revenues (net of contractual allowances and discounts) since CHI accepts and treats all patients without regard to the ability to pay."

by service (so as to facilitate a corresponding comparison between gross allowable costs and ultimate payments received). The term "gross allowable costs" means costs before any deductibles or co-insurance are subtracted. St. Alexius Medical Center's ultimate reimbursement will be reduced by any applicable copayment/ deductible. Where Medicare is the secondary insurer, amounts due from the insured's primary payer were not subtracted from Medicare allowable costs because the amounts are typically immaterial. St. Alexius Medical Center believes that excluding Medicare losses from community benefit makes the overall community benefit report more credible for these reasons. Unlike subsidized areas such as burn units or behavioral-health services, Medicare is not a differentiating feature of tax-exempt health care organizations. In fact, for-profit hospitals focus on attracting patients with Medicare coverage, especially in the case of well-paid services that include cardiac and orthopedics. Significant effort and resources are devoted to ensuring that hospitals are reimbursed appropriately by the Medicare program. The Medicare Payment Advisory Commission (MedPAC), an independent Congressional agency, carefully studies Medicare payment and the access to care that Medicare beneficiaries receive. The commission recommends payment adjustments to Congress accordingly. Though Medicare losses are not included by Catholic hospitals as community benefit, the Catholic Health Association guidelines allow hospitals to count as community benefit some programs that specifically serve the Medicare population. Schedule H, Part III, Line 9b Collection practices for patients eligible for financial assistance	St Alexius Medical Center's debt collection policy provides that St Alexius Medical Center will perform a reasonable review of each inpatient account prior to turning an account over to a third-party collection agent and prior to instituting any legal action for non-payment, to assure that the patient and patient guarantor are not eligible for any assistance program (e.g. Medicaid) and do not qualify for coverage through St. Alexius Medical Center's community assistance policy. After having been turned over to a third-party collection agent, any patient account that is subsequently determined to meet the St. Alexius Medical Center community assistance policy is required to be returned immediately by the third-party collection agent to St. Alexius Medical Center for appropriate follow-up. St. Alexius Medical Center requires its third-party collection agents to include a message on all statements indicating that if a patient or patient guarantor meets certain stipulated income requirements, the patient or patient guarantor may be eligible for financial assistance. All of Catholic Health Initiatives' hospitals' contracts with third party collection agencies include the following standards. * Neither CHI hospitals nor their collection agencies will request bench or arrest warrants as a result of non-payment, * Neither CHI hospitals nor their collection agencies will seek liens that would require the sale or foreclosure of a primary residence, and * No Catholic Health Initiatives' collection agency may seek court action without hospital approval. Finally, collection agencies are trained on the Catholic Health Initiatives Mission, Core Values and Standard of Conduct to make sure all patients are treated with dignity and respect.

Form and Line Reference	Explanation
Schedule H, Part VI, Line 3 Patient education of eligibility for assistance	St Alexius Medical Center includes information concerning its financial assistance policy on its website. In addition, St. Alexius Medical Center prominently displays its financial assistance policy in both English and Spanish in obvious locations throughout the hospitals, including the emergency rooms and other patient intake areas, as well as in St. Alexius Medical Center outpatient facilities. In addition, St. Alexius Medical Center registration clerks are trained to provide consultation to those who have no insurance or potentially inadequate insurance concerning their financial options including application for Medicaid and for financial assistance under St. Alexius Medical Center's financial assistance policy. Upon registration (and once all EMTALA requirements are met), patients who are identified as uninsured (and not covered by Medicare or Medicaid) are provided with a packet of information that addresses the financial assistance policy and procedures including an application for assistance. St. Alexius Medical Center registration clerks read the organization's medical assistance policy to those who appear to be incapable of reading, and provide translators for non-English-speaking individuals. St. Alexius Medical Center's staff will also assist the patient/guarantor with applying for other available coverage (such as Medicaid), if necessary. Counselors assist Medicare eligible patients in enrollment by providing referrals to the appropriate government agencies.

The leading causes of death in Burleigh county ranked in order are Diseases of the Heart, Alzheimers, Respiratory Cancer, Accidental, Cerebrovascular Disease, COPD, Diabetes, Breast Cancer, and Colorectal Cancer. Health related behaviors influence cardiovascular diseases such as smoking, physical inactivity, poor nutrition, and unhealthy weight status. Hypertension is a chronic disease associated with aging that has a high risk factor for heart disease and stroke. In North Dakota, 26% adults have high blood pressure. North Dakota adults are a part of the national trend towards increased obesity 63% of the adults here have an unhealthy weight/BMI. Some of the health screenings that St. Alexius is conducting throughout the service region are vascular, wellness, memory, sleep apnea, and chronic obstructive pulmonary disease. Those individuals that are being screened at no or minimal cost are being alerted of health risks that might go undetected. Through screenings, it is our hope that these individuals seek further treatment and are empowered to make healthier lifestyle choices.

Form and Line Reference	Explanation
Schedule H, Part VI, Line 6 Affiliated health care system	St Alexius Medical Center, along with its affiliated outpatient facilities, are part of Catholic Health Initiatives (CHI) is a national faith-based nonprofit health care organization with headquarters in Englewood, Colorado CHI's exempt purpose is to serve as an integral part of its national system of hospitals and other charitable entities, which are described as market-based organizations, or MBOs. An MBO is a direct provider of care or services within a defined market area that may be an integrated health system and/or a stand-alone hospital or other facility or service provider. CHI serves as the parent corporation of its MBOs which are comprised of 104 hospitals, including four academic medical centers, and 30 critical access facilities, community health service organizations, accredited nursing colleges, home health agencies, and other facilities that span the inpatient and outpatient continuum of care. Together, these facilities provided \$1.1 billion in financial assistance and community benefit in the 2016 fiscal year, including services for the poor, free clinics, education and research. CHI provides strategic planning and management services as well as centralized "shared services" for the MBOs. The provision of centralized management and shared services - including areas such as accounting, human resources, payroll and supply chain provides economies of scale and purchasing power to the MBOs. The cost savings achieved through CHI's centralization enable MBOs to dedicate additional resources to high-quality health care and community outreach services to the most vulnerable members of our society. St. Alexius Medical Center operates with its wholly owned affiliates and community partners, to serve the health care needs of the North Dakota communities.
