Schedule H, Part I, Line 3c Eligibility criteria for free or discounted care	When Catholic Health Initiatives (the ultimate parent organization to Garrison Memorial Hospital) established its financial assistance policy it was determined that establishing a household income scale based on the HUD very low income guidelines more accurately reflects the socioeconomic dispersions among urban and rural communities in 18 states served by CHI hospitals and health care facilities. In comparing HUD guidelines to the Federal Poverty Guidelines (FPG), we find that on average HUD guidelines compute to approximately 200% to 250% (and sometimes 300%) of FPG. Garrison Memorial Hospital bases its financial assistance eligibility on HUD's 130% of Very Low Income Guidelines based on geography, and affords the uninsured and underinsured the ability to obtain financial assistance write-offs, based on a sliding scale, ranging from 25%-100% of charges.

Schedule H, Part III, Line 2 Bad debt expense - methodology used to estimate amount	THE AMOUNT REPORTED AS BAD DEBT EXPENSE REPRESENTS TOTAL CHARGES WRITTEN OFF TO BAD DEBT WHEN DISCOUNTS ARE EXTENDED TO SELF-PAY PATIENTS, THESE PATIENT ACCOUNT DISCOUNTS ARE RECORDED AS A REDUCTION IN REVENUE, NOT AS BAD DEBT EXPENSE

Form and Line Reference	Explanation
Schedule H, Part III, Line 3 Bad Debt Expense Methodology	The estimated amount of the organization's bad debt attributable to patients eligible under the charity care policy was calculated by applying the estimated percentage of the service area below the poverty guideline (13.5%) obtained from the most recent census from www.census.gov to the amount of bad debt expense

Form and Line Reference	Explanation
Schedule H, Part III, Line 4 Bad debt expense - financial statement footnote	<p>Garrison Memorial Hospital does not issue separate company audited financial statements. However, the organization is included in the consolidated financial statements of Catholic Health Initiatives. The consolidated footnote reads as follows: "The provision for bad debts is based upon management's assessment of historical and expected net collections, taking into consideration historical business and economic conditions, trends in health care coverage, and other collection indicators. Management routinely assesses the adequacy of the allowances for uncollectible accounts based upon historical write-off experience by payor category. The results of these reviews are used to modify, as necessary, the provision for bad debts and to establish appropriate allowances for uncollectible net patient accounts receivable. After satisfaction of amounts due from insurance, CHI follows established guidelines for placing certain patient balances with collection agencies, subject to the terms of certain restrictions on collection efforts as determined by each facility. The provision for bad debts is presented on the consolidated statement of operations as a deduction from patient services revenues (net of contractual allowances and discounts) since CHI accepts and treats all patients without regard to the ability to pay."</p>

<p>Schedule H, Part III, Line 8 Community benefit & methodology for determining medicare costs</p>	<p>Using essentially the same Medicare cost report principles as to the allocation of general services costs and "apportionment" methods, the "CHI Workbook" calculates a payers' gross allowable costs by service (so as to facilitate a corresponding comparison between gross allowable costs and ultimate payments received) The term "gross allowable costs" means costs before any deductibles or co-insurance are subtracted Garrison Memorial Hospital's ultimate reimbursement will be reduced by any applicable copayment/ deductible Where Medicare is the secondary insurer, amounts due from the insured's primary payer were not subtracted from Medicare allowable costs because the amounts are typically immaterial Garrison Memorial Hospital believes that excluding Medicare losses from community benefit makes the overall community benefit report more credible for these reasons Unlike subsidized areas such as burn units or behavioral-health services, Medicare is not a differentiating feature of tax-exempt health care organizations In fact, for-profit hospitals focus on attracting patients with Medicare coverage, especially in the case of well-paid services that include cardiac and orthopedics Significant effort and resources are devoted to ensuring that hospitals are reimbursed appropriately by the Medicare program The Medicare Payment Advisory Commission (MedPAC), an independent Congressional agency, carefully studies Medicare payment and the access to care that Medicare beneficiaries receive The commission recommends payment adjustments to Congress accordingly Though Medicare losses are not included by Catholic hospitals as community benefit, the Catholic Health Association guidelines allow hospitals to count as community benefit some programs that specifically serve the Medicare population For instance, if hospitals operate programs for patients with Medicare benefits that respond to identified community needs, generate losses for the hospital, and meet other criteria, these programs can be included in the CHA framework in Category C as "subsidized health services " Medicare losses are different from Medicaid losses, which are counted in the CHA community benefit framework, because Medicaid reimbursements generally do not receive the level of attention paid to Medicare reimbursement Medicaid payment is largely driven by what states can afford to pay, and is typically substantially less than what Medicare pays</p>

<p>Schedule H, Part III, Line 9b Collection practices for patients eligible for financial assistance</p>	<p>Garrison Memorial Hospital's debt collection policy provides that Garrison Memorial Hospital will perform a reasonable review of each inpatient account prior to turning an account over to a third-party collection agent and prior to instituting any legal action for non-payment, to assure that the patient and patient guarantor are not eligible for any assistance program (e g Medicaid) and do not qualify for coverage through Garrison Memorial Hospital community assistance policy After having been turned over to a third-party collection agent, any patient account that is subsequently determined to meet the Garrison Memorial Hospital community assistance policy is required to be returned immediately by the third-party collection agent to Garrison Memorial Hospital for appropriate follow-up Garrison Memorial Hospital requires its third-party collection agents to include a message on all statements indicating that if a patient or patient guarantor meets certain stipulated income requirements, the patient or patient guarantor may be eligible for financial assistance All of Catholic Health Initiatives' hospitals' contracts with third party collection agencies include the following standards * Neither CHI hospitals nor their collection agencies will request bench or arrest warrants as a result of non-payment, * Neither CHI hospitals nor their collection agencies will seek liens that would require the sale or foreclosure of a primary residence, and * No Catholic Health Initiatives' collection agency may seek court action without hospital approval Finally, collection agencies are trained on the Catholic Health Initiatives Mission, Core Values and Standard of Conduct to make sure all patients are treated with dignity and respect</p>

Schedule H, Part VI, Line 6 Affiliated health care system	<p>Garrison Memorial Hospital, along with its affiliated outpatient facilities, are part of Catholic Health Initiatives. Catholic Health Initiatives (CHI) is a national faith-based nonprofit health care organization with headquarters in Englewood, Colorado. Catholic Health Initiatives (CHI) is a national faith-based nonprofit health care organization with headquarters in Englewood, Colorado. CHI's exempt purpose is to serve as an integral part of its national system of hospitals and other charitable entities, which are described as market-based organizations, or MBOs. An MBO is a direct provider of care or services within a defined market area that may be an integrated health system and/or a stand-alone hospital or other facility or service provider. CHI serves as the parent corporation of its MBOs which are comprised of 104 hospitals, including four academic medical centers, and 30 critical access facilities, community health service organizations, accredited nursing colleges, home health agencies, and other facilities that span the inpatient and outpatient continuum of care. Together, these facilities provided \$1.1 billion in financial assistance and community benefit in the 2016 fiscal year, including services for the poor, free clinics, education and research. CHI provides strategic planning and management services as well as centralized "shared services" for the MBOs. The provision of centralized management and shared services - including areas such as accounting, human resources, payroll and supply chain -- provides economies of scale and purchasing power to the MBOs. Return Reference	Explanation
Form 990, Part VI, Line 12c Conflict of interest policy	<p>Catholic Health Initiatives ("CHI") has a Conflicts of Interest ("COI") policy in place to maintain the integrity of all of its activities. The policy applies to CHI Board of Stewardship Trustees and members of its committees, all board and board committee members of CHI Entities, all CHI employees, all CHI physicians (both employed and non-employed) and all physician administrators and leaders, advanced practice clinicians (both employed and non-employed), and all CHI research personnel (both employed and non-employed). Disclosure, review and management of perceived, potential or actual conflicts of interest are accomplished through a defined COI disclosure process. Each person has a general ongoing obligation to promptly and fully report to his/her direct manager, supervisor, medical staff office, board or board committee chair any situation or circumstance that may create a conflict of interest. The person must report the actual or potential conflict as soon as she/he becomes aware of it. In any situation where the person may be in doubt, a full disclosure should be made to permit an impartial and objective determination. In addition to the general ongoing obligation, there are initial disclosure obligations. The board, board committee members, and new employees are required to make disclosures at the time of their initial hiring/appointment. All non-employed, credentialed or contracted physicians are required to make disclosures at the time of their credentialing and during any subsequent reappointment or recredentialing. All researchers are required to make disclosures upon consideration of affiliation with a research sponsor. In addition to the general ongoing and initial disclosure obligations, there is an annual disclosure obligation. All corporate officers, board and board committee members, employees at the level of manager and above, researchers, supply chain employees, employed physicians, physician administrators and leaders, and employed advanced practice clinicians must complete a new conflict of interest disclosure annually. Disclosures of perceived, potential or actual conflicts involving financial interests are forwarded to the Conflicts of Interest Review Committee ("C-CIRC") or Legal Services Group for review depending on the position of the person involved. The C-CIRC reviews COI questionnaires containing disclosures of perceived or possible conflicts for employees at a level of manager or above, supply chain employees, researchers and physicians, physician administrators and leaders, and advanced practice clinicians (both employed and non-employed). In the determination of a conflict, a COI management plan will be developed for that person. With respect to those audiences for which the C-CIRC has review responsibility, the C-CIRC will facilitate development of any such conflict of interest management plan in collaboration with local CRP staff. A designated CHI Entity staff will be responsible for monitoring the COI management plan and for documenting monitoring activities. At its sole discretion, a CHI Entity may reject a Person's request to enter into the relationship in question, or require the relationship be sufficiently altered to avoid a potential COI. If the C-CIRC determines that there is a potential or actual conflict of interest that does not currently have appropriate controls to address the conflict of interest, it may recommend that the disclosing person be allowed to participate in the activity or transaction subject to restrictions as outlined in the COI management plan. If a Person does not agree with a determination made by the C-CIRC, its interpretation of the Policy or Addenda, or seeks an exemption or exception, the following steps should be followed. The Employee disputing the review decision, interpretation of the Policy, or seeking exemption or exception must present the matter to the Employee's immediate direct manager or supervisor for review and determination. If the Employee and the manager do not agree with the review decision, interpretation of the Policy, or seek exemption or exception, the manager shall consult with the manager's Vice President (or higher if the manager is a Vice President) to reach a determination. If the matter remains unresolved, it shall be referred to the CHI Vice President of Human Resources and the CHI Corporate Responsibility Officer. If they are unable to reach agreement, the matter shall be referred to the CHI General Counsel, whose decision shall be final. Reviews and determinations involving board and board committee members and corporate officers will be the responsibility of the board, board executive committee, or board chair, with guidance from the Legal Services Group (LSG). Annual COI disclosures of all trustee and corporate officers will be reviewed by the CHI Senior Vice President, Legal Services, and General Counsel or his or her designee who will report potential conflicts to the applicable Board Chair. The Board Chair or designee shall make such further investigation of any conflict of interest disclosures as he or she may deem appropriate. If the conflict involves the Board Chair, the Vice Chair will assume the Chair's role. Based on review and evaluation of the relevant facts and circumstances, the Board Chair will make an initial determination as to whether a conflict of interest exists and whether, pursuant to the COI Policy, review and approval or other action by the Board is required. A written record of the Board Chair's determination, including relevant facts and circumstances, will be made. The Board Chair shall then make an appropriate report to the Executive Committee of the Board concerning such review, evaluation and determination. If a difference of opinion exists between the Board Chair and another Trustee as to whether the facts and circumstances of a given situation constitute a conflict of interest or whether Board review and approval or other action is required within the COI Policy, the matter shall be submitted to the Board's Executive Committee, which shall make a final determination as to the matter presented. Such determination, including relevant facts and circumstances, will be reflected in the Executive Committee minutes and will be reported to the Board. When any conflict of interest is considered by the board, the trustee or corporate officer, as appropriate, must disclose all of the material facts to the Board. The trustee shall not vote and the trustee or corporate officer shall not use his or her personal influence on the matter. The trustee or corporate officer shall be excused from the meeting during discussion and vote on the conflict of interest. In reviewing such transactions between CHI or CHI Entities and vendors or other contractors who are, or are affiliated with, Trustees or Corporate Officers, the Board will act as it would in reviewing transactions with unrelated third parties. The transaction is not to be approved unless the Board determines that the transaction is fair to CHI or the CHI Entity. The Board must approve the transaction by a majority of the Trustees on the Board, without counting the vote of any individual who has an interest in the transaction. All determinations of conflicts of interest are reported as required by law, regulations, and CHI policy.</p>
