Part VI - Additional Information	Maryland Healthcare Regulatory SystemPart I, Lines 7a & 7b Columns (c) through (f) - Maryland's regulatory system creates a unique process for hospital payment that differs from the rest of the nation. The Health Services Cost Review Commission, (HSCRC) determines payment through a rate-setting process and all payors, including governmental payors, pay the same amount for the same services delivered at the same hospital. Maryland's unique all-payor system includes a method for referencing Uncompensated Care in each payors' rates, which does not enable Maryland hospitals to breakout any directed offsetting revenue related to Uncompensated Care. Community benefit expenses are equal to Medicaid revenues in Maryland, as such, the net effect is zero. The exception to this is the impact on the hospital of its share of the Medicaid assessment. In recent years, the state of Maryland has closed fiscal gaps in the state Medicaid budget by assessing hospitals through the rate-setting system.
