METHODOLOGY USED BY THE ORGANIZATION TO ESTIMATE BAD DEBT EXPENSE	SCHEDULE H, PART III, LINES 2 AND 4 In Maryland, The Health Services Cost Review Commission (HSCRC) started setting hospital rates in 1974 At that time, the HSCRC approved rates applied only to commercial insurers In 1977, the HSCRC negotiated a waiver from Medicare hospital payment rules for Maryland hospitals to bring the federal Medicare payments under HSCRC control In 2014, Marylands waiver with Medicare was renegotiated and updated to reflect the current healthcare environment Under this new waiver, several criteria were established to monitor the success of the system in controlling healthcare costs and the continuance of the waiver itself 1 Revenue Growth per Capita 2 Medicare Hospital Revenue per Beneficiary 3 Medicare All Provider Revenue Growth per Beneficiary 4 Medicare Readmission Rates 5 Hospital Acquired Condition Rate BAD DEBT EXPENSE FOOTNOTE ON AUDITED FINANCIAL STATEMENTS Schedule H, Part III, Line 4 For receivables associated with services provided to patients who have third-party coverage, the Corporation analyzes contractually due amounts and provides an allowance for bad debts, allowance for contractual adjustments, provision for bad debts, and contractual adjustments on accounts for which third-party payor has not yet paid or for payors who are known to be having financial difficulties that make the realization of the amounts due unlikely For receivables associated with self-pay patients or balances remaining after third-party coverage has already paid, the Corporation records a significant provision for bad debts in the period of service on the basis of its historical collections, which indicates that many patients ultimately do not pay the portion of their bill for which they are financially responsible The difference between the discounted rates and the amounts collected after all reasonable collection efforts have been exhausted is charged off against the allowance for Bad Debts the discounted rates and the amounts collected after all reasonable collection efforts have been exhausted is charged off against the allowance for Bad Debts

Community Health Care Needs Assessment	Schedule H, Part VI, Line 2 Shore Regional Health has a process to assess the health care needs in the community through establishment of the Community Health Planning Council The UM SRH Community Health Planning Council serves as the lead team to conduct the Community Health Needs Assessment (CHNA) with input from The University of Maryland Medical System (UMMS) Community Health Improvement Committee, community leaders, the public, health experts, and the 5 health departments that serve the Mid-Shore The UM SRH Community Health Planning Council adopted the 6-step comprehensive assessment process developed by the Association for Community Health Improvement (ACHI) The assessment process -Develop a comprehensive profile of health status, quality of care and care management indicators for residents of the Mid-Shore area overall and by county -Identify a set of priority health needs (public health and health care) for follow-up -Provide recommendations on strategies that can be undertaken by health providers, public health, communities, policy makers and others to follow up on the information provided, so as to improve the health status of Mid-Shore residents -Provide access to the data and assistance to stakeholders who are interested in using it The Community Health Planning Council recommended and developed policies, programs and services that carry out the mission of University of Maryland Shore Regional Health to enhance the health of local communities The council reports through and provides regular updates to senior leadership and the Board Strategic Planning Committee Ultimately the Community Health Planning Council determines the community benefit activities to be delivered by Shore Regional Health to the community based on best use of resources and areas of expertise

Form and Line Reference	Explanation
Eligibility Education	Schedule H, Part VI, Line 3 It is the policy of UM Shore Regional Health to work with our patients to identify available resources to pay for their care. All patients presenting as self pay and requesting charity relief from their bill will be screened at all points of entry, for possible coverage through state programs and a probable determination for cover age for either Medical Assistance or Financial Assistance (charity care) from the hospital is immediately given to the patient. The process is resource intensive and time consuming for patients and the hospital, however, if patients qualify for one of these programs, then they will have health benefits that they will carry with them beyond their current hospital bills, and allow them to access preventive care services as well. UM Shore Regional Health works with a business partner who will work with our patients to assist them with the state assistance programs, which is free to our patients. If a patient does not qualify for Medicaid or another program, UM Shore Regional Health offers our financial assistance program. UM Shore Regional Health posts notices of our policy in conspicuous places throughout the hospitals- including the emergency department, has information within our hospital billing brochure, educates all new employees thoroughly on the process during orientation, and does a yearly re-education to all existing staff. All staff have copies of the financial assistance application, both in English and Spanish, to supply to patients who we deem, after screening, to have a need for assistance. UM Shore Regional Health has a dedicated Financial Assistance Liaison to work with our patients to assist them with this process and expedite the decision process. Shore Health notifies patients of availability of financial assistance funds prior to service during our calls to patients, through signage at all of our registration locations, through our patient billing brochure and through our discussions with patients during registration. In addition, the information sheet is mailed to patients with all statements and/or handed to them if needed. Notices are sent regarding our Hill Burton program (services at reduced cost) yearly as well. - Shore Health prepares its FAP in a culturally sensitive manner, at a reading comprehension level appropriate to the CBSA's population, and in Spanish. - Shore Health posts its FAP and financial assistance contact information in admissions areas, emergency rooms, and other areas of facilities in which eligible patients are likely to present. - Shore Health provides a copy of the FAP and financial assistance contact information to patients or their families as part of the intake process. - Shore Health provides a copy of the FAP and financial assistance contact information to patients with discharge materials. - A copy of Shore Health's FAP along with financial assistance contact information, is provided in patient bills, and/or - Shore Health discusses with patients or their families the availability of various government benefits, such as Medicaid or state programs, and assists patients with qualification for such programs, where applicable. - An abbreviated statement referencing Shore Health's financial assistance policy, including a phone number to call for more information, is run annually in the local newspaper (Star Democrat). Hospital Financial Assistance Policy Shore Regional Health is committed to ensuring that uninsured patients within its service area who lack financial resources have access to medically necessary hospital services. If you are unable to pay for medical care, you may qualify for Free or Reduced Cost Medically Necessary Care if you have no other insurance options or sources of payment including Medical Assistance, litigation or third-party liability. Shore Regional Health meets or exceeds the legal requirements by providing financial assistance to those individuals in households below 200% of the federal poverty level and reduced cost-care up to 300% of the federal poverty level. Patients Rights Shore Regional Health will work with their uninsured patients to gain an understanding of each patient's financial resources. They will provide assistance with enrollment in publicly-funded entitlement programs (e.g. Medicaid) or other considerations of funding that may be available from other charitable organizations. If you do not qualify for Medical Assistance, or financial assistance, you may be eligible for an extended payment plan for your hospital medical bills. If you believe you have been wrongly referred to a collection agency, you have the right to contact the hospital to request assistance. (See contact information below) Patients Obligations Shore Regional Health believes that its patients have personal responsibilities related to the financial aspects of their healthcare needs. Our patients are expected to - Cooperate at all times by providing complete and accurate insurance & financial

Description of Community Served	Schedule H, Part VI, Line 4 Situated on Maryland's Eastern Shore, University of Maryland Shore Regional Health's three hospitals, Shore Medical Center at Easton (SMC at Easton), Shore Medical Center at Dorchester (SMC at Dorchester), and Shore Medical Center at Chestertown (SMC at Chestertown) are not for-profit hospitals offering a complete range of inpatient and outpatient services to over 170,000 people throughout the Mid-Shore of Maryland. Shore Regional Health's service area is defined as the Maryland counties of Caroline, Dorchester, Talbot, Queen Annes and Kent. The five counties of the Mid-Shore comprise 20% of the landmass of the State of Maryland and 2% of the population. SMC at Easton is situated at the center of the mid-shore area and thus serves a large rural geographical area (all 5 counties of the mid-shore). SMC at Dorchester is located approximately 18 miles from Easton and primarily serves Dorchester County and portions of Caroline County. UMC at Chestertown, located in Kent County, merged with Shore Regional Health in July 2013. SMC at Chestertown serves the residents of Kent County, portions of Queen Annes and Caroline Counties and the surrounding areas. Shore Regional Health's service area has a higher percentage of population aged 65 and older as compared to Maryland overall. Talbot County has a 27.2% rate for this age group and Kent County has 25.3% of its residents age 65 years or older. These rates are 65% higher than Maryland's percentage, and higher than other rural areas in the state by almost a quarter. Today, more than two-thirds of all health care costs are for treating chronic illnesses. Among health care costs for older Americans, 95% are for chronic diseases. The cost of providing health care for one person aged 65 or older is three to five times higher than the cost for someone younger than 65. Source: http://www.cdc.gov/features/agingandhealth/state_of_aging_and_health_in_america_2013.pdf Hoffman C, Rice D, Sung HY. Persons with chronic conditions: their prevalence and costs. JAMA. 1996;276(18):1473-1479. County Health Rankings for the Mid-Shore counties also reveal the large disparities between counties for health outcomes in the service area. The Mid-Shore Region has 26,203 minority persons, representing 25.3% of the total population. In terms of healthcare, large disparities exist between Black or African Americans and Whites as reported by the Office of Minority Health and Health Disparities, DHMH. For emergency department (ED) visit rates for diabetes, asthma and hypertension, the Black or African American rates are typically 3- to 5-fold higher than White rates. Adults at a healthy weight is lower (worse) for Black or African Americans in all three counties where Black or African American data could be reported. Heart disease mortality: Black or African American rates are variously higher or lower compared to White rates in individual counties. In Caroline, the Black or African American rate is lower than the White rate not because the Black or African American rate is particularly low, but because the White rate is unusually high. For cancer mortality, Black or African American rates exceed White rates in Dorchester, Kent, Queen Annes and Talbot. In Caroline, Black or African American rates are lower, again because of a rather high White rate. The Black or African American rates and White rates are below the State Health Improvement Process (SHIP) goals. Form and Line Reference	Explanation
Promoting the Health of the Community	Part VI, Line 5 The analysis of local data indicated that diabetes, heart disease, cancer, behavioral health and access to care were all health improvement priorities for the Mid-Shore. After careful review of County health data, the Mid-Shore SHIP Coalition prioritized the potential health improvement areas and decided to focus the Coalitions efforts on three areas: (1) adolescent obesity, (2) adolescent tobacco use, and (3) diabetes related emergency department visits. The Coalition is committed to examining what evidence-based initiatives can improve the county's health in these three areas related to racial, ethnic and other demographic and geographic-related health disparities. Maryland's State Health Improvement Process (SHIP) provides a framework for continual progress toward a healthier Maryland. Maryland's State Health Improvement Process (SHIP) began with national, state and local data being reviewed and analyzed by the Maryland Department of Health and Mental Hygiene (DHMH) Office of Population Health as well as by the 5 Departments of Health (Talbot, Carolee, Dorchester, Queen Anne's, Kent). It has three main components: accountability, local action and public engagement. SHIP includes 39 measures that provide a framework to improve the health of Maryland residents. Twenty-eight of the measures have been identified as critical racial/ethnic health disparities. Each measure has a data source and a target, and where possible, can be assessed at the county level. UMSRHs priorities are aligned with the Maryland State Health Improvement Process vision areas and those objectives outlined by the local health improvement coalition UMSRHs Priorities: 1. Chronic Disease Management (obesity, hypertension, diabetes, smoking) 2. Behavioral Health 3. Access to care 4. Cancer 5. Outreach & Education (preventive care, screenings, health literacy) Initiative 1 Identified Need: Chronic Disease Management Hospital Initiative Shore Wellness Partners (SWP) provides community case management, at no charge, to community members who meet the eligibility criteria. Primary Objectives: Shore Wellness Partners is a unique program that provides a continuum of care, focusing on preventive care to improve the ability of patients and families to work together to reduce emergency department visits and readmissions. Designed for at-risk families and individuals who do not have sufficient resources and are not eligible for other in-home services. Shore Wellness Partners helps patients with disease management and life skills so that they can continue to live in their own homes. The service is provided by Shore Regional Health at no charge for those who qualify. Objectives: -Managing physical health problems -Connection with other community services -Dietary education -Home safety evaluations -Safe medicine use -Education on specific illness and treatments -Emotional support -Monitoring client progress through home visits or phone calls Key Collaborators: Members of the Shore Wellness Partners team include advanced practice nurses and medical social workers. These specialists work with patients, caregivers, and primary care providers (sometimes care is provided in the patients' home). Shore Wellness Partners is a partner in the HEZ for Dorchester and Caroline Counties. Detailed information for the HEZ model, Competent Care Connections can be found at: http://dhmh.maryland.gov/healthenterprisezones/SitePages/Home. Outcomes: Objective 1: Enroll eligible patient. Metric 1: New clients = 159. Metric 2: Number of patient visits = 1,538. Objective 2: Reduce readmissions and ED visits. Patient with no readmission: 33/56, 59%. Patient without readmit or ED visits: 25/56, 45%. Patients with ED visit but no readmission: 8/56, 14%. Patients with 1 re-hospitalization: 8/56, 14%. Patients with 2-3 re-hospitalizations: 2/56, 3.6%. Patients with 4 or more re-hospitalizations: 0/56, 0%. Patients with ED visit(s) and hospitalizations: 4/56, 7%. Initiative 2: Identified Need: Cardiovascular Care -Chronic Disease Management -Reduction in ED visits. The Antithrombosis Clinic is designed to provide dedicated health care monitoring for those patients receiving chronic warfarin therapy. Warfarin therapy is reported widely in the medical literature as having significant morbidities associated with long-term therapy. Vigilant monitoring is necessary to avoid these complications. This clinic provides at no charge close monitoring of these patients with dedicated, knowledgeable staff. Through close monitoring, education, and continuous follow-up, the risks associated with long-term anticoagulation are greatly reduced. Primary Objective of the Initiative: Metric 1: Total Number of People Reached by the Initiative Within the Target Population UMC at Chestertown: 29. 3 patients served UMC at Easton: 1,511 patients served. Metric 2: Improved outcomes. Time in Therapeutic range is 77% compared to 'usual non-clinic care' of 40-50%. Based on analysis of the literature, this higher rate of time in ther
