Form and Line Reference	Explanation
PART I, Lines 6A and 7	<p>Line 6A An annual community benefit report is prepared for each fiscal year ending June 30. This report is submitted to the health services cost review commission (HSCRC), a state regulatory agency, by December 15 of each year. In addition, the annual community benefit report is available on the website (<a href="http://www.umuch.org">www.umuch.org</a>) under the community health section and upon request from the University of Maryland Upper Chesapeake Health System's Department of Community Outreach. Line 7 Maryland's regulatory system creates a unique process for Hospital payment that differs from the rest of the nation. The health services cost review commission (HSCRC), determines payment through a rate setting process and all payors, including governmental payors, pay the same amount for the same services delivered at the same hospital. Maryland's unique all payor system includes a method for referencing uncompensated care in each payors' rates, which does not enable Maryland hospitals to breakout any off setting revenue related to uncompensated care. Community benefit expenses are equal to Medicaid revenue in Maryland, as such, the net effect is zero. Additionally, net revenues for Medicaid should reflect the full impact on the hospital of its share of the Medicaid assessment.</p> <p>PART II The Medical Center's community building activities promoted the health of the communities it serves. University of Maryland Upper Chesapeake Health (UM UCH) is a community based, non-profit health system located in Harford County. It is dedicated to maintaining and improving the health of the people in its communities through an integrated health delivery system that provides the highest-quality care to all. UM UCH includes two acute care hospitals (1) UM Upper Chesapeake Medical Center in Bel Air, Md and (2) UM Harford Memorial Hospital in Havre de Grace, Md. With over 82 percent of our 3,200 team members living in Harford and Cecil counties, we truly are neighbors who take care of our neighbors. We are dedicated to maintaining and improving the health of the people in our community and providing them with the highest quality of care. Our two hospitals support programs and activities where our expertise and resources can influence the fundamental issues that affect the health of the community. One of our biggest and most valuable resources, Health Link is a service of our Community Outreach program. For many years, it has provided health screenings, educational programs and support groups to individuals either free of charge or for a nominal fee. Because of these resources, thousands of people in our surrounding neighborhoods have the knowledge they need to make positive health and wellness choices. HealthLink also partners with Harford County's Office on Aging to provide screenings for the senior population, an evidence-based falls prevention program, and diabetes management support groups. In conjunction with our many health, governmental and non-profit partners, including Healthy Harford Inc., UM UCH actively reaches out to our community to promote healthy lifestyles, improved eating habits, increased physical activity and decreased tobacco use for the prevention of chronic disease and obesity, two prevalent and very preventable conditions. Healthy Harford, which was founded by UM UCH and other county partners, predominantly engages the underserved and homeless population and works alongside Harford County United Way and more than 100 agencies, including the interfaith community. To meet the high priority needs of the area, UM UCH also implemented the following:</p> <ul style="list-style-type: none"><li>- A six-week Living Well chronic disease self-management program</li><li>- Mental Health First Aid Training</li><li>- Increased access to care studies for low-income Harford County residents without transportation</li><li>- Kids in Safety Seats (KISS)-trained car seat installation inspector teams</li><li>- Prescription and illegal substance abuse prevention programs</li></ul> <p>UM UCH also participates in various county, state and regional emergency preparedness planning activities and drills with our community partners such as emergency services, fire and rescue, the Department of Health, county government, FEMA and MEMA. This serves to ensure that, in the event of a disaster or emergency, our hospitals are ready to support and care for our community. Economic development is a priority of the health system, as well, and we have leadership participation in the Harford County Chamber of Commerce. Health care systems across the country, including UM UCH, face new challenges as they work to improve the way health care is delivered. At Upper Chesapeake, we strive to enhance the lives of those in our community by working together to provide a continuum of care across many disciplines. Our affiliation with the University of Maryland Medical System allows us to provide the growing northeast Maryland area with expanded clinical services, programs, facilities and increased physician recruitment. We are committed to delivering world-class services.</p>

It contains, among others, the cities and towns of Havre de Grace, Aberdeen, Bel Air, Fallston, and Edgewood. The service area enjoys a diverse economic base, ranging from concentrations in service, manufacturing, distribution, and retail, to Federal government employment. Harford Community College provides a local venue for advanced education and Harford County's proximity to Baltimore gives it access to nationally recognized universities which help provide a skilled workforce. The Service Area is served by Interstate 95, Amtrak and freight rail lines along the busy east-coast transportation corridor between New York and Washington, DC. In 2013, the Service Area had a total population of 249,215 people with historical annual growth rates of approximately 1.8% per year. This growth has been characterized by an influx of young families seeking suburban environment in which to live and is complemented by a growth in businesses and other services that follow young, middle class families. In 2013, the Service Area had an estimated 90,218 households with a median family income of \$80,441. 91% of the service area's adults over the age of 25 are high school graduates or higher, 30% achieved bachelor's degrees or higher. The service area's growth and geographic location explain its ability to attract major east-coast distribution center and industry, which have provided additional employment opportunities in the service area.</p>
