NEEDS ASSESSMENT	<p>PART VI, LINE 2 In FY15, MedStar Washington Hospital Center (the Hospital Center) conducted a Community Health Needs Assessment (CHNA) in accordance with the guidelines established by the Patient Protection and Affordable Care Act and the Internal Revenue Service. The hospital's CHNA was led by 26 Advisory Task Force (ATF) members, which was comprised of a diverse group of individuals, including community residents, faith-based leaders, hospital representatives and public health experts. The ATF reviewed quantitative and qualitative community health data, as well as local, regional and national health goals. Based on their findings, the ATF designed a survey to identify trends in how participants perceived the severity of key health issues in the following categories: wellness and prevention, access to care, quality of life, and environment. Community members responded to the survey by attending a community input session or completing it online or via hardcopy. Based on the ATF's recommendation, the hospital identified Wards 5, 7 and 8 of the District of Columbia as its Community Benefit Service Area (CBSA) geography with a high density of low-income or vulnerable residents within close proximity of the hospital. Health priorities for the CBSA include chronic disease (heart disease/stroke, cancer, diabetes, and obesity), and teen births and child development. The hospital's FY15 CHNA and three-year Implementation Strategy was endorsed by the Hospital Center's Board of Directors and approved by the MedStar Health Board of Directors. The document became available on the hospital's official website on June 30, 2015. As a proud member of MedStar Health, representatives from the Hospital Center routinely participate in the MedStar Health community benefit workgroup. The workgroup is comprised of community health professionals who represent all ten MedStar hospitals. The team analyzes local and regional community health data, establishes system-wide community health programming performance and evaluation measures and shares best practices.</p>
