Part X, Line 2	Management has evaluated the effect of FASB guidance on accounting for uncertainty in income taxes. The guidance clarified the accounting for uncertainty in income taxes recognized in an entity's financial statements by prescribing a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. The University's policy is to record a liability for any tax position taken that is beneficial to the University, including any related interest and penalties, when it is more likely than not the position taken by management with respect to a transaction or class of transactions will be overturned by a taxing authority upon examination. Management believes there are no such positions as of June 30, 2016 and, accordingly, no liability has been accrued.
