There were 231,463 outpatient visits out of which 48,615 were for emergency care visits. The Hospital delivered 3,944 babies. Overlake Medical Clinics provided 293,904 patient visits. Overlake Hospital demonstrated a commitment to improving the health of the community by supporting many health-related events, programs, clinical research and made various contributions throughout the year that had a direct benefit to the community. The Hospital maintains records to identify and monitor the level of charity care it provides. These records include the amount of charges foregone for services. Overlake Hospital provided care to 5,167 patients who were uninsured or under insured at an estimated cost of \$3,809,000. Part III, Line 2 - Methodology Used To Estimate Bad Debt Expense	Patient bills are reduced by payments, contractual adjustments, charity adjustments, and other adjustments as applicable. Patients are then responsible for any remaining balance. If a patient does not pay the balance or make payment arrangements according to the collection policy, the balance is written off to bad debt. The bad debt expense on Schedule H, Part III, lines 2 and 3 are estimated based on the cost to charge ratio.

Form and Line Reference	Explanation
Part III, Line 3 - Methodology of Estimated Amount & Rationale for Including in Community Benefit	The Hospital believes that approximately 91% of the bad debt expense are related to patients that would be eligible under the Hospital's charity care guidelines had the patient provided the financial information necessary to make the determination. This percentage is based on running credit checks on a sample of accounts that were being sent to bad debts.

Form and Line Reference	Explanation
Part III, Line 4 - Bad Debt Expense	Provision for Bad Debt footnote on attached Audited Financial Statement page 15, section 6

Form and Line Reference	Explanation
Part III, Line 8 - Explanation Of Shortfall As Community Benefit	The costing methodology for Medicare allowable cost is derived from FY 2016 Medicare Cost Report The Hospital believes that all of the Medicare shortfall should be treated as community benefit. The IRS community benefit standard includes the provision of care to Medicare patients and the Hospital continues providing care to the Medicare beneficiaries regardless of the shortfall. By absorbing the Medicare shortfall, the Hospital thereby relieves the federal government of the burden of paying the full cost for Medicare beneficiaries.

Form and Line Reference	Explanation
Part III, Line 9b - Provisions On Collection Practices For Qualified Patients	The Hospital will place a patient's account on hold when a patient's account is being considered for charity. Once a determination has been made that a patient qualifies for charity care, the patient's account is reduced by the charity amount granted and a letter is sent to the patient noting the charity adjustment. The patient may appeal the decision if he/she believes there is additional information that should have been considered or the financial situation has changed. The patient is responsible for any balance remaining after the charity adjustment, if any, and the collection process will continue in the normal process.

Form and Line Reference	Explanation
Part VI - Needs Assessment	In 2015, the Hospital participated in a collaborative process for the Community Health Needs Assessment as part of the King County Hospitals for a Healthier Community (HHC) HHC is a collaborative of all 12 hospitals and health systems in King County and Public Health-Seattle & King County The HHC members joined together to identify important health needs and assets in the communities they serve This shared approach avoids duplication and focuses available resources on a community's most important health needs Primary data sources took into account input from people who represent the broad interest of the communities served by HHC hospitals and health systems Stakeholders included representatives of medically underserved, low-income and minority populations, populations with chronic disease needs, local health departments, human service providers, government staff, fire departments, law enforcement, advocacy organizations, hospital staff, groups focused on health disparities, faith communities, labor, and managed care organizations A total of 11 coalitions and 99 individual organizations or key informants provided information Secondary data was collected from a variety of local, county and state sources to present a community profile, birth indicators, leading causes of death, access to care, chronic disease, communicable disease, health behaviors, social issues and school and student characteristics When available, these data sets were presented in the context of King County and Washington, framing the scope of an issue as it relates to the broader community In addition, the Hospital conducted targeted interviews to gather information and opinions from persons who represent the broad interest of the community served by the hospital The report includes benchmark comparison data, comparing the Hospital community data findings with Health People 2020 objectives

Form and Line Reference	Explanation
Part VI - Patient Education of Eligibility for Assistance	Information about assistance programs starts at the point of registration. Placards describing the financial assistance programs are at all admitting registration desks. Financial assistance can take the form of assistance in qualifying for Medicaid, charity, or prompt pay discounts. Financial counselors are available to discuss the financial arrangements for all patients and they discuss the financial assistance program. The Financial counselors will also assist patients in completing the Hospital's charity care application if the patient brings in information and needs help completing the application. The Hospital engages an outside company to assist patients with applying for Medicaid. General information about the assistance programs is then included as part of each patient statement that is sent to a patient and includes the phone number of the Patient Financial Services department to call for assistance. In addition, as part of the account follow up, Patient Financial Service Representatives will call patients after their second statement and will discuss patient financial assistance as part of the call. Overlake's charity care policy is posted on the Washington State Department of Health's website and on the Hospital's website.

Form and Line Reference	Explanation
Part VI - Community Information	The Hospital's primary service area is East King County which is bounded by Lake Washington to the west and the Cascade Mountains to the east and extends north to the King County line, near the City of Bothell, and south to Black Diamond. It has a population base of approximately 901,064 residents with an ethnic makeup of 70% white, 19% Asian, 3% African American, 8% other. 12% of the residents are 65 or older and another 28% in the 45 to 64 age bracket. The median household income was \$94,002. However, 6.4% of the population was living at or below 100% of the federal poverty level during the 5 year average period from 2008-2012. 15.1% were living at or below 200% of the federal poverty level. 8.6% of adults and 2.2% of children in the community are uninsured.

Form and Line Reference	Explanation
Part VI - Explanation Of How Organization Furthers Its Exempt Purpose	The Hospital staff participates in the county wide disaster preparedness group and is the back up to Harborview Medical Center The Hospital has an open medical staff model The Hospital operates an active screening program in which we offer free health screenings at least four times annually at community events The largest one is the annual Overlake Eastside Vitality Community Health Fair in which we provide over 2,000 free screenings including cholesterol, stroke risk, diabetes, and skin cancer Screening results and free counseling are provided at the events Those who need to see a physician are given a list of providers, including community medical clinics

Form and Line Reference	Explanation
Part VI - Additional Information	Part I, Line 3cIn addition to the FPL criteria, there is a residency requirement to either be a resident of the state of Washington or meet an exception for non residents. Non residents may be eligible for financial assistance while receiving services within the Emergency department or as a result of a direct admission from the Emergency Department. Exceptions to the Washington State residency requirement also include refugees, asylees, and those seeking asylum that possess and can present INS documentation. Part I, Line 7The costing methodology for charity care and unreimbursed Medicaid was the cost to charge method using the cost to charge ratio derived from worksheet 2. The community health improvement cost, health professional education, research and cash and in-kind contributions are direct cost and do not include any indirect cost. The cost for subsidized health services is derived from a cost accounting system that addresses all patient segments.
