Form and Line Reference	Explanation
Schedule H, Part I, Line 7	In most cases the costs listed in Line 7 are actual costs associated with these programs In cases where the cost for certain activities is too cumbersome to compile, the cost to charge ratio from the most recently filed Medicare Cost Report (FY2016) was used

Form and Line Reference	Explanation
Schedule H, Part I, Line 7g	The Hospital did include costs from Physician clinics in Part I, line 7g for both family practice and specialized physician services. These costs are as follows, Womens Health clinic -\$375,929, Family and Pediatrics -\$286,936, Internal medicine -\$113,333, Pain Management -\$238,641, Orthopaedics -\$332,110, and Urology -\$332,477.

Form and Line Reference	Explanation
Schedule H, Part II	The Hospital supports local educational and workforce institutions through monetary donations, job fairs, job shadowing programs, internships, community partnerships, coalitions, and skills training Community workforce development and health education improves the quality of life and the health of the community by fostering positive activities and by engaging the community in health initiatives

Form and Line Reference	Explanation
Schedule H, Part III, Section A, Line 4	Footnote Bad debt provisions are made for the amount of revenue that will not be collected from patients to whom services were billed but not paid The Hospital has determined these patients are neither medically nor financially indigent and do not qualify for the Hospital's charity care program Bad debt provisions are determined by management's assessment with consideration of business and economic conditions, changes and trends in healthcare coverage, and other collection indicators The adequacy of this provision is periodically reviewed and further modified based upon the accounts receivable payor composition and aging, and historical writeoff experience by payor class Schedule H, Part III is based on the estimated cost to provide care for individuals whose accounts were classified as bad debt during the year The amount which may be attributable to patients who qualify for charitable assistance or free care is estimated at approximately 73% of that total These are accounts which our financial counselors made every effort to contact and assist patients to apply for financial assistance, but the patient refused to do so It is our belief that all of these bad debts should be considered community benefit because they provide a necessary and vital health benefit to community members without the expectation of compensation

Form and Line Reference	Explanation
Schedule H, Part III, Section B, Line 8	It is our belief that the shortfall in actual receipts from Medicare compared to the cost to provide care to Medicare patients should be considered a community benefit. The reason for this stance is that the Hospital is required to write off all contractual allowances for Medicare patients regardless of the amount of the shortfall. The Hospital may only collect the portion which is a patient's co-pay for deductible and may not engage in collection efforts for the remainder. As Medicare patients comprise a significant percentage of our community members, our community Hospital must provide needed medical services to this population irrespective of the payments received. The Medicare costs reported herein are based on the fiscal year 2016 Medicare cost report filed.

Form and Line Reference	Explanation
Schedule H, Part III, Section C, Line 9b	The Hospital's collection policy PFS-546 addresses private pay patients and defines the individuals which are eligible to receive financial assistance based on either financial or medical indigence. The collection policy refers to the charity care policy for instructions on determining eligibility. As noted in Part I, the charity care policy is based on FPG which is the basis for a sliding scale between 200% and 300% of those guidelines. Applicants on the upper end of the scale (300%) are eligible for a discount on their bills, while those on the lower end (200%) are eligible for free care.

Form and Line Reference	Explanation
Schedule H, Part VI, Line 2	In addition to the preparation of a Community Health Needs Assessment (CHNA) and a strategic plan to meet those needs, the Hospital also determines health deficiencies in the community through a variety of other ways. Hospital Administrators round on patients and meet regularly with an advisory committee comprised of area residents and former patients to determine the physician and specialty services necessary to meet the health needs of the community. The Hospital periodically employs consultants to determine the physician and specialty services needed in the community for strategic planning and physician recruiting. Finally, an open dialogue exists between Hospital management and patients, staff, and area medical providers which is another source of identifying community health needs.

Form and Line Reference	Explanation
Schedule H, Part VI, Line 3	Hospital staff attempt to provide a financial assistance brochure to every patient during the admission or discharge process. The brochure is also available at each entrance, upon request, on the Hospital's public website, and is published in the local newspaper. Financial counselors personally contact patients with past due balances and explain the financial assistance policy, assist with applications for assistance, and set up payment plans if necessary. The Hospital employs 3 full time financial counselors that meet personally with patients to review their bills, set up payment arrangements, explain the financial assistance policy, and assist with the application process. In addition, the Hospital purchases advertising space in the local newspaper to notify the public of its financial assistance program and explain how patients can contact a financial counselor to apply.

Form and Line Reference	Explanation
Schedule H, Part VI, Line 4	The area served by the Hospital is comprised of 13 census designated places or towns and has a total population of 36,000 residents according to the 2010 census, approximately 11% of the population is 65 years or older, 32% are between 45 and 64, and 32% are between 19 and 44 Basic socioeconomic characteristics of the region indicate an 8.6% unemployment rate with a median household income of \$60,378, while 8.9% of residents live below the federal poverty line More than 22% of adults age 18 to 64 years are uninsured, just 1% higher than the National average

Form and Line Reference	Explanation
Schedule H, Part VI, Line 5	The Hospital engages in numerous community efforts year-round to improve health awareness and education in our service area. Monetary donations to local non-profits that support health initiatives, healthy living programs, personnel support to local non-profits, public service announcements, conference room space for community organizations and support groups, health speaker bureaus, child safety programs, health professions education, health fairs, immunization clinics, community health newsletters, and numerous other programs, initiatives and collaborations.

Part III Supplemental Information

Provide the information, explanation, or descriptions required for Part I, lines 1a, 1b, 3, 4a, 4b, 4c, 5a, 5b, 6a, 6b, 7, and 8, and for Part II. Also complete this part for any additional information.

Return Reference	Explanation
Schedule J, Part I, Line 1a	Gross up payments are made for certain taxable fringe benefits including life insurance over \$50,000. A year-end wage adjustment is made for all affected employees to include the gross up for fringe benefits and excess life insurance benefits. The hospital has historically paid all social security and Medicare taxes on such benefits while the employee is responsible for federal income taxes.
Schedule J, Part I, Line 1b	The year-end gross up adjustment for fringe benefits and life insurance over \$50,000 is based on historical practice and is not based on a written policy. The hospital maintains that at some future date, employees may be required to pay their own FICA taxes on these fringe benefits.
Schedule J, Part I, Line 3	The Hospital contracts with an independent consultant every two years to perform a review of executive salaries and benefits. The most recent review was performed in October 2016. The resulting report is provided to the Board of Directors and Management for review. The Board then sets compensation levels for the CEO through a written employment contract or amendment. The CEO is responsible for hiring the remainder of the Hospital's executive staff and for using comparable data studies to set their salaries.
Schedule J, Part I, Line 4	The Hospital provides a 457 top hat plan to certain key employees and executives. The following individuals on Schedule J participated in the 457 plan and either deferred their own compensation or received hospital contributions into the plan during the tax year: Gregg Motonaga \$18,773, Justin Evans \$18,773, Richard Davis \$7,374, Lance Spindler \$4,369, Karen Scoggins \$3,671, and Matthew Dammeyer \$4,700.
Schedule J, Part I, Line 5	In accordance with their employment contracts, Emergency room physicians and surgeons receive a percentage of their professional fees billed as compensation. The compensation is not based directly on the Hospital's overall revenue, but on the individual charges that are generated by the physician. This compensation method is considered reasonable and customary for these employed physicians.
Schedule J, Part I, Line 6	The Hospital pays an annual incentive plan bonus to all employees, supervisors, and executive staff based on a series of 4 operational and quality measures in order to maintain the highest standard of patient care. One of these 4 measures is meeting the Hospital's financial budget. There is a knock-out provision for the other measures if the financial budget is not met. The bonus is not calculated based on the Hospital's net earnings. The remaining three measures are 1) Quality of care, 2) Patient satisfaction, and 3) Utilization.
