Return Reference	Explanation
Part X, Line 2	FASB's guidance on accounting for uncertainty in income taxes clarifies the accounting for uncertainty of income tax positions. This guidance defines the threshold for recognizing tax return positions in the financial statements as "more likely than not" that the position is sustainable on examination, based on its technical merits. The standard also provides guidance on the measurement, classification, and disclosure of tax return positions in the financial statements. The Society believes it has appropriate support for the positions taken on its tax returns. Nonetheless, the amounts ultimately paid, if any, upon resolution of the issues raised by taxing authorities may differ materially from the amounts filed. Management believes its nonprofit status would be sustained upon examination.
