Part II, Community Building Activities	Littleton Regional Healthcare is involved in many community building activities that promote the health and wellbeing of the communities it serves. We work closely with a number of local healthcare agencies including, North Country Health Consortium, North Country Home Health & Hospice, Ammonosuc Community Health Services, and Littleton Area Senior Center, to name a few, whose mission is similar to LRH. Each of these agencies addresses common concerns including access to healthcare, health improvement, and health education. LRH encourages its staff to serve on community collaboration boards, and health advocacy agencies to promote the services and programs provided by LRH and surrounding agencies. We also work with local safety providers to promote safety and prevent injuries. LRH is actively involved in working with area schools to promote health and wellness among our youth.

Form and Line Reference	Explanation
Part III, Line 4	Patient accounts receivable are stated at the amount management expects to collect from outstanding balances. Management provides for probable uncollectible amounts through a charge to operations and a credit to a valuation allowance based on its assessment of individual accounts and historical adjustments. Balances that are still outstanding, after management has used reasonable collection efforts, are written off through a charge to the valuation allowance and a credit to patient accounts receivable. In evaluating the collectibility of accounts receivable, the Hospital analyzes past results and identifies trends for each major payor source of revenue for the purpose of estimating the appropriate amounts of the allowance for doubtful accounts and the provision for bad debts. The adequacy of the allowance for doubtful accounts is regularly reviewed. For receivables associated with services provided to patients who have third-party coverage, an allowance for doubtful accounts and a provision for bad debts are established at varying levels based on the age and payor source of the receivable. For receivables associated with self-pay patients, the Hospital records a provision for bad debts in the period of service based on past experience indicating the inability or unwillingness to pay amounts for which they are financially responsible.

Form and Line Reference	Explanation
Part III, Line 8	Any shortfall is treated as a community benefit. The Organization uses a cost to charge ratio from the Medicare cost report to determine the amount of Medicare allowable costs.

Form and Line Reference	Explanation
Part III, Line 9b	Patients who are known to qualify for financial assistance are given a financial assistance application to fill out and return to our Financial Counselor. Upon receipt of the financial assistance application, the application is processed and the amount of financial assistance that will be granted to the patient is determined. Once the percentage of financial assistance is approved, we adjust the account balance accordingly. If a balance is left over after the financial assistance is adjusted, the patient will receive their monthly statements for the remaining balance. If the patient defaults on paying the remaining balance, their account will be sent to a third party collection agency no sooner than 120 days from date of their first statements issued. At this time we would turn the account over to the third party collection agency for further collection efforts.

Form and Line Reference	Explanation
Part VI, Line 2	LRH takes a comprehensive approach to assess community health needs. We perform several independent data analyses based on secondary source data, augment this with local survey data and resolve any data inconsistency or discrepancies from the combined opinions formed from local experts. We rely on secondary source data and most secondary sources use the county as the smallest unit of analysis. Since the service area comprises parts of Grafton County, we asked local residents to note if they perceived the problems, or needs, identified by secondary sources to exist in their portion of the county.

Form and Line Reference	Explanation
Part VI, Line 3	Any applicant will receive a prompt decision on eligibility and amount of charity care offered. Notices of the Charity Care Policy are posted in the lobbies, waiting rooms and other public areas. Notices are also given to recipients who are served in their homes.

Form and Line Reference	Explanation
Part VI, Line 4	The Hospital's defines its primary service area as Grafton County, New Hampshire. The 2012 population for Grafton County is estimated to be 90,847, and is expected to grow at a rate faster than the national rate of growth, projecting a 2017 population of 95,080. This population growth is at a faster rate than for New Hampshire as a whole. According to the population estimates utilized by Truven, provided by the Neilson Company, the 2012 median age for the County is 39.9 years, younger than the New Hampshire median age (40.4 years) but older than the national median age (36.8 years). The 2012 Median Household Income for the area is \$52,729, which is lower than the New Hampshire median income of \$59,470 but higher than the national median income of \$49,599. Median Household Wealth and Median Home Values likewise are below State and above national values. Grafton's unemployment rate as of August 2012 was 4.4%, which is lower than the statewide rate of 5.7%, and considerably better than the national civilian unemployment rate of 8.1%. The portion of the population in the County over 65 is 15.9%, above the New Hampshire average of 13.5%. The portion of the population of women of childbearing age is 19.9%, somewhat higher than the New Hampshire average of 19.5%. In the County this population is anticipated to increase 1%, whereas for New Hampshire as a whole, the female population age 15 to 44 is anticipated to decline as a rate of just over 2%.
