SCHEDULE H, PART III, SECTION A, LINE 4	<p>PROVISION FOR BAD DEBT WAS CALCULATED USING THE ORGANIZATION'S BAD DEBT EXPENSE FROM ITS AUDITED FINANCIAL STATEMENTS, NET OF ACCOUNTS WRITTEN OFF AT CHARGES. THE ORGANIZATION AND ITS AFFILIATES PREPARE AND ISSUE AUDITED CONSOLIDATED FINANCIAL STATEMENTS. THE SYSTEM'S ALLOWANCE FOR DOUBTFUL ACCOUNTS (PROVISION FOR BAD DEBT) METHODOLOGY AND CHARITY CARE POLICIES ARE CONSISTENTLY APPLIED ACROSS ALL HOSPITAL AFFILIATES. THE ATTACHED TEXT WAS OBTAINED FROM THE FOOTNOTES TO THE AUDITED FINANCIAL STATEMENTS OF THE ORGANIZATION.</p> <p>Allowance for Doubtful Accounts: Accounts receivable are reduced by an allowance for doubtful accounts. In evaluating the collectability of accounts receivable, the Health System analyzes its past history and identifies trends for each of its major payor sources of revenue to estimate the appropriate allowance for doubtful accounts and provision for bad debts. Management regularly reviews data about these major payor sources of revenue in evaluating the sufficiency of the allowance for doubtful accounts. For receivables associated with services provided to patients who have third-party coverage, the Health System analyzes contractually due amounts and provides an allowance for doubtful accounts and a provision for bad debts, if necessary (for example, for expected uncollectible deductibles and copayments on accounts for which the third-party payor has not yet paid, or for payors who are known to be having financial difficulties that make the realization of amounts due unlikely). For receivables associated with self-pay patients (which includes both patients without insurance and patients with deductible and copayment balances due for which third-party coverage exists for part of the bill), the Health System records a significant provision for bad debts in the period of service on the basis of its past experience, which indicates that many patients are unable or unwilling to pay a portion of their bill for which they are financially responsible. The difference between the standard rates (or the discounted rates if negotiated) and the amounts actually collected after all reasonable collection efforts have been exhausted is charged off against the allowance for doubtful accounts.</p> <p>CHARITY CARE: THE HEALTH SYSTEM PROVIDES CARE TO PATIENTS WHO MEET CERTAIN CRITERIA UNDER THEIR CHARITY CARE POLICIES WITHOUT CHARGE OR AT AMOUNTS LESS THAN ESTABLISHED RATES. BECAUSE THE HEALTH SYSTEM DOES NOT PURSUE COLLECTION OF AMOUNTS DETERMINED TO QUALIFY AS CHARITY CARE, THEY ARE NOT REPORTED AS NET PATIENT REVENUE.</p>

<p>SCHEDULE H, PART III, SECTION B, QUESTION 8</p>	<p>The inpatient medicare allowable costs were determined from the submitted fy 2016 medicare cost report, worksheet d-1, line 49 Worksheet d-1, line 49 does not include direct gme c osts The outpatient allowable costs come from worksheet e, part b medicare underpayments and Bad debt is community benefit and associated costs are includable on the form 990, sc hedule h, part i the organization did not include medicare underpayments (shortfall) and bad debt in the calculation of their community benefit percentage however, The organizati on feels that medicare underpayments (shortfall) and bad debt are community benefit and as sociated costs are includable on the form 990, schedule h, part i As outlined more fully below, the organization believes that these services and related costs promote the health of the community as a whole and are rendered in conjunction with the organization's charit able tax-exempt purposes and mission in providing medically necessary healthcare services to all individual's in a non-discriminatory manner without regard to race, color, creed, s ex, national origin or ability to pay and consistent with the community benefit standard p romulgated by the irs The community benefit standard is the current standard for a hospit al for recognition as a tax-exempt and charitable organization under internal revenue code ("irc") 501(c)(3) The organization is recognized as a tax-exempt entity and charitable o rganization under 501(c)(3) of the irc Although there is no definition in the tax code fo r the term "charitable", a regulation promulgated by the department of the treasury provid es some guidance and states that "[t]he term charitable is used in 501(c)(3) in its genera lly accepted legal sense,provides examples of charitable purposes, including the relief of the poor or unprivileged, the promotion of social welfare, and the advancement of educati on, religion, and science Note it does not explicitly address the activities of hospitals In the absence of explicit statutory or regulatory requirements applying the term "chari table" to hospitals, it has been left to the irs to determine the criteria hospitals must meet to qualify as irc 501(c)(3) charitable organizations The original standard was known as the charity care standard This standard was replaced by the irs with the community be nefit standard which is the current standard Charity care standard In 1956, the irs issue d revenue ruling 56-185, which addressed the requirements hospitals needed to meet in orde r to qualify for irc 501(c)(3) status One of these requirements is known as the "charity care standard " under the standard, a hospital had to provide, to the extent of its financ ial ability, free or reduced-cost care to patients unable to pay for it A hospital that e xpected full payment did not, according to the ruling, provide charity care based on the f act that some patients ultimately failed to pay The ruling emphasized that a low level of charity care did not necessarily mean that a hospital had failed to meet the requirement since that level could reflect its financial ability to provide such care The ruling also noted that publicly supported community hospitals would normally qualify as charitable or ganizations because they serve the entire community, and a low level of charity care would not affect a hospital's exempt status if it was due to the surrounding community's lack o f charitable demands Community benefit standard In 1969, the irs issued revenue ruling 69 -545, which "remove[d]" from revenue ruling 56-185 "the requirements relating to caring fo r patients without charge or at rates below cost " under the standard developed in revenue ruling 69-545, which is known as the "community benefit standard," hospitals are judged o n whether they promote the health of a broad class of individuals in the community The ru ling involved a hospital that only admitted individuals who could pay for the services (by themselves, private insurance, or public programs such as medicare), but operated a full- time emergency room that was open to everyone The irs ruled that the hospital qualified a s a charitable organization because it promoted the health of people in its community The irs reasoned that because the promotion of health was a charitable purpose according to t he general law of charity, it fell within the "generally accepted legal sense" of the term "charitable," as required by treas Reg 1 501(c)(3)-1(d)(2) The irs ruling stated that the promotion of health, like the relief of poverty and the advancement of education and r eligion, is one of the purposes in the general law of charity that is deemed beneficial to the community as a whole even though the class of beneficiaries eligible to receive a dir ect benefit from its activities does not include all members of the community, such as indigent members of the community, provided that the class is not so small that its relief is not of benefit to the community The irs conclude</p>

Form and Line Reference	Explanation
<p>SCHEDULE H, PART III, SECTION B, QUESTION 8</p>	<p>d that the hospital was "promoting the health of a class of persons that is broad enough to benefit the community" because its emergency room was open to all and it provided care to everyone who could pay, whether directly or through third-party reimbursement. Other characteristics of the hospital that the IRS highlighted included the following: its surplus funds were used to improve patient care, expand hospital facilities, and advance medical training, education, and research; it was controlled by a board of trustees that consisted of independent civic leaders; and hospital medical staff privileges were available to all qualified physicians. The organization believes that Medicare underpayments and bad debt are community benefit and associated costs are includable on the form 990, schedule H, part I. The American Hospital Association ("AHA") feels that Medicare underpayments (shortfall) and bad debt are community benefit and thus includable on the form 990, schedule H, part I. This organization agrees with the AHA position. As outlined in the AHA letter to the IRS dated August 21, 2007 with respect to the first published draft of the new form 990 and schedule H, the AHA felt that the IRS should incorporate the full value of the community benefit that hospitals provide by counting Medicare underpayments (shortfall) as quantifiable community benefit for the following reasons: - providing care for the elderly and serving Medicare patients is an essential part of the community benefit standard; - Medicare, like Medicaid, does not pay the full cost of care. Recently, Medicare reimburses hospitals only 92 cents for every dollar they spend to take care of Medicare patients. The Medicare Payment Advisory Commission ("MedPAC") in its March 2007 report to Congress cautioned that underpayment will get even worse, with margins reaching a 10-year low at negative 5.4 percent; - many Medicare beneficiaries, like their Medicaid counterparts, are poor. More than 46 percent of Medicare spending is for beneficiaries whose income is below 200 percent of the federal poverty level. Many of those Medicare beneficiaries are also eligible for Medicaid -- so called "dual eligibles." There is every compelling public policy reason to treat Medicare and Medicaid underpayments similarly for purposes of a hospital's community benefit and include these costs on form 990, schedule H, part I. Medicare underpayment must be shouldered by the hospital in order to continue treating the community's elderly and poor. These underpayments represent a real cost of serving the community and should count as a quantifiable community benefit. Both the AHA and this organization also feel that patient bad debt is a community benefit and thus includable on the form 990, schedule H, part I. Like Medicare underpayment (shortfalls), there also are compelling reasons that patient bad debt should be counted as quantifiable community benefit as follows: - a significant majority of bad debt is attributable to low-income patients, who, for many reasons, decline to complete the forms required to establish eligibility for hospitals' charity care or financial assistance programs. A 2006 Congressional Budget Office ("CBO") report, Nonprofit Hospitals and the Provision of Community Benefits, cited two studies indicating that "the great majority of bad debt was attributable to patients with income below 200% of the federal poverty line" - the report also noted that a substantial portion of bad debt is pending charity care. Unlike bad debt in other industries, hospital bad debt is complicated by the fact that hospitals follow their mission to the community and treat every patient that comes through their emergency department, regardless of ability to pay. Patients who have outstanding bills are not turned away, unlike other industries. Bad debt is further complicated by the auditing industry's standards on reporting charity care. Many patients cannot or do not provide the necessary</p>

CORE FORM, PART III, STATEMENT OF PROGRAM SERVICE ACCOMPLISHMENTS	<p>view - Women & Infants has been recognized as a 2014 Top Performer on Key Quality Measures by The Joint Commission, the leading accreditor of healthcare organizations in the U.S. Women & Infants was recognized as part of The Joint Commission's 2015 annual report "America's Hospitals Improving Quality and Safety," for attaining and sustaining excellence in accountability measure performance for perinatal care. Women & Infants is one of only two hospitals in Rhode Island and 1,043 hospitals out of more than 3,300 eligible hospitals in the U.S. to achieve the 2014 Top Performer distinction. - Women & Infants was awarded three Women's Choice Awards in 2015 for obstetrics, breast health and cancer care. These evidence-based designations identify the country's best healthcare institutions based on robust criteria that consider patient satisfaction, clinical excellence, and what women say they want from a hospital. - The Obstetrics and Gynecology Residency Program at The Warren Alpert Medical School of Brown University and Women & Infants has been ranked in the top five programs in the Northeast. Doximity, the largest physician network, announced in 2015 the first-ever regional residency program rankings. - The Center for Reproduction and Infertility at Women & Infants earned the status of a Nursing Center of Excellence from the Nurses' Professional Group of the American Society of Reproductive Medicine (ASRM). This designation will be active for the next three years. The Nursing Center of Excellence status indicates that at least 50 percent of the registered nurses and/or nurse practitioners in the Center for Reproduction and Infertility are experienced in reproductive endocrinology nursing and have completed the additional training in this area through the ASRM eLearn Reproduction and Infertility Nursing Certificate Course. Research highlights from 2015 ----- - A researcher with the Breast Health Center at Women & Infants presented the results of a study showing that women with Stage 2 or 3 triple-negative breast cancer (TNBC) who have a pathologic complete response (pCR) to chemotherapy before surgery are more likely to survive compared to those who had more than minimal residual invasive cancer during surgery at the prestigious San Antonio Breast Cancer Symposium. The presentation built upon research that William Sikov, MD, presented at the 2013 Symposium. At that time, his work demonstrated that adding either of two drugs - carboplatin or bevacizumab - to standard chemotherapy that many women with TNBC receive before surgery were more likely to have no residual cancer detected at surgery. - Women & Infants received a nearly \$5 million grant from the NIH to support an Institutional Development Award (IDeA) Center of Biomedical Research Excellence (COBRE) for Perinatal Biology. Of the more than 100 COBREs across the country, Women & Infants is the only one specifically focused on developmental research. The IDeA program b</p>
