The Corporation collaborates with its supported organizations (hospitals) to develop and implement programs to improve the future of health care in southern New England. This includes initiatives to improve the quality and accessibility of health care, create efficiency in internal operations, and provide patients with the most technically advanced and compassionate, coordinated care. Through its supported organizations (hospitals), the Corporation was designed to provide patients with more convenience to healthcare access in their local communities. The hospitals provide these needed medical services to all patients regardless of their abilities to pay. Through Hartford Hospital, we provide the state's first critical air helicopter service, called Life Star. This provides air transport around the clock for patients who require life-saving advanced care for critical injuries, often those caused by accidents. Each year, about 1,200 patients are transported on specially equipped Life Star helicopters, which can travel at 150 mph. Hartford HealthCare is further integrating care, and increasing access to high-quality services, through its institute model. The Corporation has established the Hartford HealthCare Cancer Institute, the first in the nation to be named a member of the Memorial Sloan Kettering Cancer Alliance, the Bone and Joint Institute, with New England's first and only orthopedic specialty hospital, the Neuroscience Institute, with a renowned Headache Center and Movement Disorders Center, the Heart and Vascular Institute, the Tallwood Urology and Kidney Institute, and the Behavioral Health Network. Our institutes are led by world-renowned physicians-in-chief, and provide clinical support, research, and education for our patients, physicians and communities. Hartford HealthCare is an economic engine for the state of Connecticut. We are the third-largest employer in the state, and our ongoing investment in capital programs and projects provides jobs, enhances access to care and improves the quality of life for all state residents. In all, Hartford HealthCare proudly serves 101 of Connecticut's 169 cities and towns. The Corporation was designed to provide a high degree of access to quality services, offering patients, customers and clients with compassionate, coordinated care, close to home.

990 Schedule A, Supplemental Information

Return Reference	Explanation
FORM 990 SCH A PART IV SECTION D LINE 3	<p>Hartford Healthcare Corporation ("HHC") is the parent organization of an integrated health care delivery organization and has a close and continuing relationship with its supported hospitals, and has significant controls over the activities of its supported hospitals. There are significant and ongoing relationships between HHC and its supported hospitals that demonstrate the close and continuous working relationship between HHC and the supported organizations and that the supported organizations have a significant voice in the activities of HHC. For example, supported organizations' board members are members of key HHC Board committees that have been delegated the authority for significant functions of HHC. A significant portion of the authority of the HHC Board has been delegated to and is performed through its committees. These Committees include the Finance Committee, Quality and Safety Committee, and Strategic Planning and Community Benefit Committee. Through the presence of their board members on these key committees, the supported organizations have a significant voice in the operations of HHC. In addition to the above, HHC receives significant input from and works with all of the supported hospitals to develop community health needs assessments (CHNA). The CHNA work is started in the HHC Board Committee called Strategic Planning and Community Benefit, then developed by the hospitals and approved by the hospital boards. HHC is responsive to the needs and demands of its supported hospitals and the supported hospitals have significant influence in the operational aspects of HHC, the management, quality and otherwise in directing the use of income or assets of HHC. The HHC corporate purposes include developing and implementing (a) goals and priorities for new or expanded health-related programs for the benefit of the supported hospitals and the communities served by them, (b) programs and facilities for the effective delivery of a continuum of health care services, (c) programs of the supported hospitals to enhance the quality and accessibility of health care services, the efficiency of utilization of health care facilities and services and the reasonableness of the cost of health care to the public, and (d) educational programs for health professionals and the public (e.g., continuing medical education, nursing education, allied health professional education, graduate medical education, and community education) about health services, preventive care, and wellness. HHC also examines the needs and pursues opportunities for routine corporate matters such as acquiring or constructing properties which may enhance the delivery of health care services. HHC's Chief Operating Officer participates in board meetings of the supported hospitals to discuss system activity. The highest executive at each supported hospital (The "Regional President") is employed by HHC. The Regional President meets with all executives of HHC leadership weekly for leadership</p>

FORM 990 SCH A PART IV SECTION D LINE 3	<p>meetings throughout the course of the year to discuss matters related to HHC and make decisions about the services and operations of the supported hospitals through capital and operating budget discussions and strategic planning for operations. As a result of these close and continuous interactions, the supported organizations and their officers and directors and other leadership provide significant advice and input to HHC and its leadership on important matters such as (a) operating budgets, including routine and strategic capital expenditures, (b) strategic plans and other key initiatives, and (c) population healthcare planning needs, including areas of deficiency, oversupply, and expected future need. This level of interaction generates an ongoing dialogue that affords the supported hospitals and their leadership a significant voice in HHC decision making on such matters of strategic importance. Directors of new supported hospitals that join the system serve on the board of HHC thereby providing additional means for the supporting organizations to have a significant voice in the operations of HHC.</p>

990 Schedule A, Supplemental Information

Return Reference	Explanation
FORM 990 SCH A PART IV, SECTION E LINES 3A & 3B	<p>While the supported organizations maintain significant voices in the operations of HHC, HHC is the parent organization of the overall health system and, both through its ability to appoint and remove the directors of the supported organizations and certain reserved powers over the operations of the supported organizations, exercises a substantial degree of control over the policies, programs and activities of each supported organization. In addition, HHC exclusively engages in activities that further the charitable purposes of the supported organizations that would be carried on by the supported hospitals directly were it not for the existence of HHC. To that end, and far beyond the revenues and expenses of the Form 990, HHC provides significant oversight to the supported organizations to ensure that the entire health care system is operated in a charitable manner that best serves the health needs of the communities serviced by the HHC health care system.</p>
