Part X, Line 2	The FASB has issued an interpretation on accounting for uncertainty in income taxes. This interpretation addresses the accounting for uncertainties in income taxes recognized in an entity's financial statements and prescribes a threshold of more-likely-than-not for recognition and re-recognition of tax positions taken or expected to be taken in a tax return. The determination of tax exempt status is considered to be a tax position with respect to the provisions of the interpretation. The Foundation's policy is to evaluate the likelihood that its uncertain tax positions will prevail upon examination based on the extent to which those positions have substantial support within the Internal Revenue Code and Regulations, Revenue Rulings, court decisions and other evidence. It is the opinion of management that the Foundation has no uncertain tax positions.
