Auction Rate Securities are debt or preferred securities with an interest or dividend rate reset periodically in an auction. Although there may be daily, weekly and monthly resets, there is no guarantee that there will be liquidity. If an auction agent does not receive bids lower than the maximum rate for the total par amount, the result may be a failed auction. In a failed auction, there is no assurance that a secondary market will develop or that the security will continue to trade at par. Given market conditions, the price noted may change.

The information in this statement may include assets not held by Goldman Sachs. Performance history for each mutual fund investment is available as of the date set forth in the inception date column. Total asset class returns may reflect previous mutual fund investments and may not equal the sum of the returns at a product level. Returns may include closed strategies.

Auction Rate Securities are debt or preferred securities with an interest or dividend rate reset periodically in an auction. Although there may be daily, weekly and monthly resets, there is no guarantee that there will be liquidity. If an auction agent does not receive bids lower than the maximum rate for the total par amount, the result may be a failed auction. In a failed auction, there is no assurance that a secondary market will develop or that the security will continue to trade at par. Given market conditions, the price noted may change.

Not a Deposit. Not FDIC Insured. May Lose Value (Excluding Goldman Sachs Bank Deposit Account, Term Deposits and Certificates of Deposit).

Brokerage and securities services provided by Goldman Sachs & Co. Bank Deposit Account, Certificates of Deposit and Term Deposits offered by Goldman Sachs Bank USA, Member FDIC.

ITD (Inception to Date) reflects annualized returns if the ITD is 12 months or greater. Otherwise ITD reflects cumulative returns.
