Supplemental Information

Return Reference	Explanation
Part X, Line 2	The Organization follows the provisions of FASB's Income Tax Topic of the ASC which requires an assessment of the Organization's exposure to income taxes at the entity level as a result of uncertain tax positions taken in current and previously-filed tax returns. Examples of tax positions taken at the entity level include continued qualification as a tax-exempt organization and the existence of unrelated-business taxable income arising from the conduct of unrelated-business activities. Any tax benefits associated with uncertain tax positions that are in excess of a realization threshold must be recorded as a liability for unrecognized tax benefits in the financial statements, including any associated interest and penalties. Presently, management believes that it is more likely than not that its tax positions will be sustained upon examination, including any appeals and litigation, and therefore, management believes that the Organization has no exposure to income taxes arising from uncertain tax positions.
