Form and Line Reference	Explanation
Part V, Section B, Line 1	<p>cs, pediatricians and family practice physicians, local communities, etc. The second program, known as CATCH (Coordinated Approach To Child Health), is an evidence-based, coordinated school health program designed to promote physical activity and healthy food choices and to prevent tobacco use in children from preschool through grade eight. By teaching children that eating healthy and being physically active every day can be fun, the CATCH program has proven that establishing healthy habits in childhood can promote behavior changes that can last a lifetime. For more than 25 years, the CATCH platform has been proven to launch kids and communities toward healthier lifestyles. CATCH is supported by more than 120 academic papers, indicating as much as an 11 percent decrease in overweight and obese individuals in the environments in which it has been implemented. Upper Valley will collaborate with eight local public school districts, two faith-based schools, and the Miami County Dental Clinic in the planning and implementation of this program. In the broader community, Upper Valley Medical Center will implement a strategy to increase the amount of healthy food available for people with health-related nutritional needs. The short-term objectives are 1) to ensure that all eligible patients are signed up for Supplemental Nutritional Assistance Program (SNAP) and/or Women Infant Children (WIC) benefits, and 2) to increase the availability of fresh produce in partnership with local food pantries, area farmers, and/or community gardens. The hospital may begin screening for hunger to ascertain the scope of the problem. If determined feasible, the hospital, along with its affiliates in Premier Health, would like to create a food pharmacy, or similar prescription for food program by 2019. A food pharmacy accepts people with a physician referral and offers two to three days' worth of food per visit. Patients can return to the food pharmacy once per month for up to six months, at which time they can return to their physician for another referral if they are still in need. Other services may include nutrition counseling, cooking classes, and a connection to community resources. Major local food pantries in Miami County will be used as resources to implement this strategy. Upper Valley Medical Center is one of five hospitals in the Premier Health system. All five hospitals participated with other health care organizations to create a collaborative Community Health Needs Assessment (CHNA). Based on the results of the Assessment, the five Premier hospitals jointly identified three shared health care need priorities that are critical throughout the Premier service area: Birth Outcomes, Chronic Diseases and Behavioral Health/Substance Abuse. The remaining health care needs identified in the Assessment are shared with many local health departments in our region, as well as state agencies. These include Access to Care, Social Determinants, Provider Shortages, Transportation.</p>
