"Multiple" in reference to an Acquisition Date, indicates that there is more than one acquisition date for a position

"Original Cost" is the amount paid for an investment excluding any accrued interest. Original Cost represents positions' par amount times the acquisition price. It remains constant over the life of an investment

"Adjusted Cost" is the Original Cost of acquisition plus or minus any accretion or amortization amounts. Accretion and amortization calculations adjust the Original Cost basis over the life of the investment to the expected redemption amount or face value
