## Supplemental Information

Return Reference	Explanation
Part X, Line 2	<p>ASC guidance regarding accounting for uncertainty in income taxes clarifies the accounting for income taxes by prescribing the minimum recognition threshold an income tax position is required to meet before being recognized in the financial statements and applies to all income tax positions. Each income tax position is assessed using a two step process. A determination is first made as to whether it is more likely than not that the income tax position will be sustained, based upon technical merits, upon examination by the taxing authorities. If the income tax position is expected to meet the more likely than not criteria, the benefit recorded in the financial statements equals the largest amount that is greater than 50% likely to be realized upon its settlement. At December 31, 2016 and 2015, there were no uncertain tax positions that require accrual.</p>
