the commitment to capital to continue to pursue growth opportunities and to expand existing healthcare services, with the goal of providing the best care possible.

Part V, Section B, Line 11: Henry Ford Allegiance Health and its community partners have a comprehensive implementation strategy to meet needs identified in the Community Health Needs Assessment (CHNA). The CHNA implementation strategy is rolled out in stages.

Henry Ford Allegiance Health completed a Community Health Needs Assessment with partners across Jackson County. After surveying community stakeholders and analyzing local health data, the following indicates the priority areas of focus for HFAH.

IDENTIFIED PRIORITIES / GOALS

- o Improve the knowledge, attitudes and behaviors of residents of Jackson County
- o Reduce the obesity rate amongst Jackson County residents
- o Reduce smoking rate and secondhand smoke exposure in Jackson County
- o Improve the behavioral health and emotional wellness of Jackson County residents
- o Enhance collaborative action planning, resource alignment, and linkages among clinical and social systems to achieve collective population health impact

Multiple strategies were adopted to address each identified priority.

HFAH serves as the "champions" for multiple strategies. While measuring improvement in health status for every priority can be challenging in the short term, updated data indicates local improvement in a number of areas including:

- o Proportion of Jackson County residents that received advice about their weight from a health care provider increased from 27% in 2010 CHNA to 39% in 2013 CHNA and 42% in 2015 CHNA.
- o Number of Jackson residents with low access to fresh food decreased from 19,000 to 12,000 from 2013 CHNA to 2015 CHNA.
- o Proportion of smokers who report receiving advice from their provider to quit increased from 61% to 68% from 2013 CHNA to 2015 CHNA.
- o Percent of adults who would 'definitely' seek professional help for a serious emotional problem increased from 54% to 63% from 2013 CHNA to 2015 CHNA.

In terms of significant health needs that will not be addressed, Henry Ford Allegiance Health acknowledges the wide range of health concerns that emerged from the CHNA process, and determined it could most effectively focus on those health needs that were determined to be most urgent and essential to the health of the community as well as within its ability to influence.

The implementation plan can be accessed on the hospital's website at www.allegiancehealth.org/services/prevention-community-health/programs-initiative

PART V, SECTION B, LINE 22A:

Uninsured patients who do not otherwise qualify for insurance with household incomes at or below 250% of the Federal poverty level may qualify under the Patient Financial Assistance Policy (FAP) for medically necessary services to be provided at no cost.

In addition, patients regardless of insurance status with annual medical liabilities to HFHS in excess of 30% of their household income may qualify for discounts on their personal obligations. Patient's personal responsibilities for medically necessary services not covered by insurance or FAP are generally based on the amount generally billed for the service, which approximates 115% of prevailing Medicare rates.

The Hospital prepares an annual community benefit report, which can be accessed at allegiancehealth.org/givingback.

Part I, Line 7:

The Hospital used a cost-to-charge ratio to calculate the cost of charity care and Medicaid shortfall.

Community Health Improvement Services, Health Professions Education, Research and Contributions are actual amounts.

Part I, Ln 7 Col(f):

Our total expense from Form 990, Part IX, line 25, column (A) was \$280,168,659. This expense is used as the denominator for purposes of calculating Part I, Line 7, column(f). The denominator does not include bad debt expense. Bad debt expense is subtracted from net patient services revenue.

Part II, Community Building Activities:

The Hospital is involved in numerous community building activities. We believe these activities, such as supporting affordable housing, working in partnership with the local community college to develop skilled nurses and supporting economic development programs directly improve the general health and wellness of the community. Also, staff at every level of the organization are encouraged to serve community groups that promote education, health and economic advocacy for the less fortunate.

Part III, Line 2:

The organization's bad debt expense is stated in patient gross charges.

Part III, Line 4:

Accounts receivable are reduced by an allowance for uncollectible accounts. In evaluating the collectability of accounts receivable, the Hospital analyzes its historical experience and identifies trends for each of its major payor sources to estimate the appropriate allowance for uncollectible accounts and the provision for bad debts. Management

regularly reviews data about these major payor sources in evaluating the sufficiency of the allowance for uncollectible accounts. For receivables associated with services provided to patients who have third-party health care coverage, the Hospital analyzes contractually due amounts and provides an allowance for uncollectible accounts and provision for bad debts. For receivables associated with self-pay accounts (which includes both patients without insurance and patients with deductible and copayment balances due for which third-party coverage exists for part of the bill), the Hospital records a significant provision for bad debts in the period of service on the basis of its past experience, which indicates that many patients are unable or unwilling to pay the portion of their bill for which they are financially responsible. The difference between the standard rates and the amounts actually collected after all reasonable collection efforts have been exhausted is charged off against the allowance for uncollectible accounts.

The amount of bad debt reported for the six months ended December 31, 2016 financial statements was \$15,297,753.

Part III, Line 8:

The Organization believes the entire Medicare shortfall reported on Line 7 should be treated as Community Benefit. Henry Ford Allegiance Health is nationally recognized by Healthgrades as being in the top five percent nationally for patient safety (seven years in a row). Henry Ford Allegiance Health also benchmarks favorably on overall cost per case and is deemed to be an efficient provider.

The Organization is subsidizing a government program and sustaining significant losses in providing health care to Medicare recipients. By continuing to treat patients eligible for Medicare, hospitals alleviate the federal government's burden for directly providing medical services.

Part III, Line 9b:

The Hospital does not collect from patients known to qualify for charity care or other financial assistance. Patients having difficulty paying their bills are directed to financial counselors. These counselors review

Part VI, Line 2:

The Health Improvement Organization (HIO) was founded on the understanding that long-term health improvement requires that we extend beyond acute medical care to affect the social and environmental determinants of health. Since its creation in 2000, the HIO has evolved to become a national best practice model for organizing population health improvement efforts in a region. The Health Improvement Organization Coordinating Council (HIO CC) is the community stakeholder collaborative, led by Henry Ford Allegiance Health, responsible for completing shared needs assessments, identifying high priority health issues, developing and coordinating implementation of collaborative action plans and monitoring progress over time. In FY16, the HIO CC completed an updated Community Health Assessment report and 2016-2017 Community Action Plan. The

Community Health Assessment was posted on the Henry Ford Allegiance Health and HIO websites and adopted by the Henry Ford Allegiance Board of Trustees and HIO Coordinating Council in June 2016.

This plan reflects significant work of many dedicated organizations and individuals:

Over 1200 Jackson County residents responded to our third Community Health Assessment phone survey or participated in focus group discussions to provide insight about local health status, attitudes, beliefs, behaviors and opportunities.

More than 30 HIO Coordinating Council representatives from local government, public health, health care, school districts, mental health, employers and other human service sectors spent months reviewing local data, best practice research and community input to revise our Goals and Objectives for 2016-2017.

Three existing community initiatives were voted into the Health Improvement Organization, resulting in seven Health Action Teams leading change around priority health issues.

Over 20 organizations and individuals stepped up to lead Health Action Teams and champion specific strategies.

Our Community Health Assessment gives Jackson a powerful tool to measure health indicators within geographic and demographic subpopulations and to track changes over time. Based on the most recent data, the HIO continues to prioritize obesity, smoking and behavioral health as targets for improvement. Action Teams organized around goals in each of these areas are pursuing evidence-based community strategies such as increasing access to healthy food, enhanced mental health screening, and anti-tobacco policies.

In addition to topic-specific teams around improving nutrition, physical activity, smoke-free lifestyles, behavioral health, teen pregnancy

prevention, maternal and child health, and substance abuse prevention, the HIO is active in two cross-network initiatives. The Collaborative Council is a stakeholder group comprised of individuals from health, education, and financial stability. The Collaborative Council exists to coordinate the work of all strands and agencies to maximize efficiency across the community. The Community Engagement Committee is a partnership of the HIO and Cradle to Career, Jackson's education network. Leaders from both initiatives recognized parallel goals to engage populations served and made the decision to combine efforts in order to maximize resources.

The Community Action Plan (CAP) report approved by the Board of Trustees during FY2016 clearly communicates Henry Ford Allegiance Health's role and responsibilities relative to implementation of action plans.

Part VI, Line 3:

Uninsured inpatients and observation patients are referred to a financial counselor (contracted agent/partner) for assistance with Medicaid, SSI, and Henry Ford Allegiance Health program applications. Many outpatients

During the fiscal year ended June 30, 2016, approximately 51% of the value of services rendered were to elderly patients under the Medicare program, and approximately 18% of the services were provided to patients who were deemed indigent under state, county, or Medicaid Center guidelines.

In the spirit of our mission and values, the Hospital has taken proactive steps to address those issues that will affect accessibility, the financing, and the delivery of healthcare services to all persons. During the fiscal year ended June 30, 2016, the Hospital provided charity care of \$16.4 million and recorded a provision for bad debts of \$37.1 million. Consistent with Schedule H reporting, charity care at cost for fiscal year 2016 was \$5.3 million.

Allegiance Health (HFAH) in 2001 to promote a culture of continuous health improvement in our community and integrate wellness and prevention throughout our services. The HFAH Department of Prevention and Community Health provides staff and infrastructure to facilitate the coordination of local health improvement activities. The HIO Coordinating Council (HIO CC) is a multi-disciplinary stakeholders group led by HFAH with representation from local government, public health, health care, health and human service agencies, nonprofits, school districts, health plans, mental health, employers and the faith community. The HIO CC coordinates efforts across community leaders in health to create unprecedented alignment of goals and resources, as well as a strong community platform for advocacy. The work of the HIO CC has culminated in the completion of a Community Action Plan including goals, objectives and strategies to address physical activity, nutrition, tobacco use, and depression in Jackson County. The Plan is based on assessment and data-driven processes, as well as input from over 30 representatives from local health and human service agencies, and over 100 community stakeholders. The overarching tactics that the Community Action Plan relies upon include evidence-based activities to:

Enhance media attention and public recognition of healthy lifestyle practices;

Improve access to healthy foods and safe, attractive, affordable places for activity through supportive policies and physical environment changes;

Provide social support and services that promote consistent screening, referral and supportive relationships for physical activity, nutrition,

mental health and smoking behavior change.

The HIO builds upon existing community strengths and infrastructure to support implementation of health initiatives that have been prioritized as part of a community wide plan with significant community engagement and an established infrastructure to support longevity. In addition to operational support for the HIO CC, the HFAH Department of Prevention and Community Health provides subject matter expertise on wellness and prevention at the Board, Service Line and community level, and direct service delivery (including employer-based health management, tobacco treatment services, weight management, faith community nursing, etc.) to a broad base of community members to support the health improvement priorities identified by the HIO. The Department of Prevention and Community Health has an annual budget of around \$1 million. Since 2001, the Hospital has committed over \$24.4 million of funding to this program.
