Part I, Line 3c	It is the organization's policy that no patient should be denied appropriate and necessary care on the basis of income. In response to this policy, the Caring Hearts Financial Assistance Program was set up to provide shelter to those patients who are unable to pay for their medical services. Medical service fees are written off under the financial assistance program that would otherwise have been sent to a collection agency.

Form and Line Reference	Explanation
Part I, Line 7	The costing methodology used to calculate the amounts in the table is a combination of average costs and actual costs pertaining to supplies, wages, and benefits. For supplies, the actual cost of items used for each event is applied. If no actual cost is available, we then use an estimate. Wages are calculated by multiplying the average wage rate times actual hours worked. The benefit rate used includes a fringe ratio of all benefits related to the above wage calculation. The cost accounting system does not differentiate between different payer types and no cost-to-charge ratio is used.

Deductibles and coinsurance amounts that are deemed uncollectible are written off either to bad debt expense or, if applicable, to charity care if the patient so qualifies for financial assistance. The financial statements do not contain a footnote but they account for bad debts based on gross charges to patients after reflecting any payments or discounts, or amounts determined to be eligible for charity care/financial assistance.
