	Detail for Dividends and Distributions			
2016		03/15/2017 AMENDED		
				1

This section of your tax information statement contains the payment level detail of your taxable dividends, capital gains distributions, exempt-interest dividends, nondividend distributions and liquidation distributions. Also shown are the fair market values of any taxable stock dividends or noncash liquidation distributions.

Federal, state and foreign tax withheld and investment expenses are presented as negative amounts but do not net against the reportable income totals. All amounts are grouped by security, with the transactions listed in chronological order. Subtotals for each security are provided. For situations in which the tax character of a distribution (or part thereof) is different than at the time it was paid, endnotes are provided for further explanation.

Note that a payment characterized as a "Qualified dividend" is only issuer-qualified. We include, where available, the ex date of the distribution to assist with your determination of whether the taxpayer holding period requirement has been satisfied.
