Return Reference	Explanation
Form 990, Part VI, Section A, line 1	Executive compensation program is administered by the Executive Committee of the Board, based on a compensation philosophy approved by the Board at large. Qualified third party consultants are engaged to provide appropriate market comparability, survey data, and to assist the committee with reviews. The base salary benchmarks are targeted at the 50th percentile with flexibility to pay above or below the 50th percentile using salary ranges with a 50% range spread to recognize an incumbent's individual experience, skill, performance, or other relevant recruitment or retention factors. Incentive opportunities are established at levels that when combined with salaries positioned at the 50th percentile, are sufficient to provide total cash compensation that targets up to the approximately market 75th percentile of total cash compensation levels. Total compensation shall not exceed the 90th percentile for any individual without full board approval and documentation of the Board's reasons for such compensation. The Board of Directors receives a full report from the Executive Committee on the full compensation program at Augusta Health in an executive session of the Board. Conflicted members are excused from the meeting. Material covered includes the design of the compensation program, as well as a disclosure on range of base salaries, market benchmark data, and earned incentive compensation levels. Additionally, prerequisites such as the senior executive retirement plan (SERP) program and other related benefits are periodically reviewed with the Board. For those members who are not present for this annual report and remain free of conflict of interest, the chairman of the board presents the same material in a separate session.
