Return Reference	Explanation
Part X FIN48 Footnote	The University evaluates uncertainty in income tax positions based on a more-likely-than-not recognition standard. If that threshold is met, the income tax position is then measured at the largest amount that is greater than 50 percent likely of being realized upon ultimate settlement. For income tax positions that the University considers to be uncertain, current and deferred tax liabilities would be recognized, or assets derecognized, when it is probable that an income tax liability has been incurred and the amount of the liability is reasonably estimable, or when it is probable that a tax benefit, such as a tax credit or loss carryforward, would be disallowed by a taxing authority. As of December 31, 2015 and 2014, there were no accruals for uncertain income tax positions. If applicable, the University records interest and penalties as a component of income tax expense. At a minimum, tax years ending December 31, 2012, through the current year remain open for examination by federal and state taxing authorities.
