Liquidation, Dissolution, Termination, or Substantial Contraction

Liquidation, Dissolution, Termination, or Substantial Contraction

This statement is submitted to report the distribution of certain assets during the tax year. The distributions resulted in a substantial contraction of assets.

The following information is submitted in accordance with Treasury Regulation Section 1.6043-3(a)(1) and the Form 990-PF instructions:

During the taxable year ending December 31, 2016, the Foundation made distributions from assets from sources other than current income. Collectively, the distributions in excess of current income totaled \$7,094,090. This amount represents more than 25% of the Foundation's net assets of \$91,507 (as measured by fair market value) at the beginning of the Foundation's taxable year ending December 31, 2016. Although the Foundation technically experienced a "substantial contraction," it will continue in existence and has no plans for dissolution.

The Foundation made distributions of cash to the grantees listed in the attachment to Part XV, Line 3a; each such grant was made solely for the charitable purpose specified therein.

Part VII-B, Statements Regarding Activities for Which Form 4720 May Be Required

The Foundation uses CyberGrants, a grant-making platform which verifies eligibility for grants and processes grant payments. During 2016, two nonprofits incorrectly entered their bank account information when providing ACH account numbers in the CyberGrants system. Both of these errors were identified months later when the nonprofits called to inquire about when they would receive funds. Upon the realization that the grant funds were deposited in the wrong accounts, the Foundation attempted to recall the payments but funds were not available in the accounts to be recovered. The Foundation has recovered the funds for one of the transactions and is continuing to work to resolve this issue for the other transaction. In both cases, the account numbers provided were similar to the correct account numbers, so it is believed that these errors were not intentional acts of fraud. The ACH data entry process has been changed to now require organizations to validate their entries and submit a cancelled check for comparison purposes.

The Foundation does not consider these payments made in error to unintended parties to be taxable expenditures but has provided the above information for transparency. The amount to be recovered has been reported as a receivable in Part II.
