Part X, Line 2	FIN 48 FOOTNOTE Accounting principles generally accepted in the United States of America provide accounting and disclosure guidance about positions taken by an entity in its tax returns that might be uncertain. Penalties and interest assessed by income taxing authorities, if any, would be included in income tax expense. Touro believes it has appropriate support for any tax positions taken, and management has determined that there are no uncertain tax positions that are material to the financial statements.

Part I, Line 3c	
Part I, Line 7	Touro is costing services using a Ratio of Cost to Charges (RCC) of Adjusted Total Expense as a ratio of Gross Patient Charges. We apply the ratio to Gross Charges of the population being measured in order to estimate cost. Adjusted Total Expense is Touro Hospital's Total Expense less non-patient revenue and removing Direct Community benefit cost disclosed on Sch H line 7j(c). Touro uses the Ratio of Adjusted Cost to Gross Patient Charges, using Worksheet 2 in the Schedule H instructions Part I, line 7b(d). >>>>>>>>>>>>>>>>>>>>>Touro and other health care providers in Louisiana have collaborated with the State and units of local government in Louisiana, to more fully fund the Medicaid program and ensure the availability of quality healthcare services for the low income and needy residents in the community population. The provision for this care directly to low income and needy patients will result in the alleviation of the expense of public funds the governmental entities previously expended on such care, thereby allowing the governmental entities to increase support for the state Medicaid program up to federal Medicaid Upper Payment Limits (UPL). Each State's UPL methodology must comply with its State plan and be approved by the Centers for Medicare & Medicaid Services (CMS). Federal matching funds are not available for Medicaid payments that exceed UPLs. In Tax Year 2016, Touro received UPL payments of approximately \$44.6 million which is included in "Direct offsetting revenue" on Part I, Line 7b. To ensure continued access to uninsured, underinsured and Medicaid patients, the State of Louisiana made significant payments in 2016 to Touro.

>>>>>>>>>>>></p> <p>Touro completed a comprehensive regional community health needs assessment resulting in the identification of top community health needs The assessment process included input from persons who represent the broad interests of the communities served by the hospital facilities, including those with special knowledge and expertise of public health issues and the underserved community The objective of the assessment was to analyze traditional health related indicators, as well as social, demographic, economic, and environmental factors and measure these factors with previous needs assessments and state and national trends The assessment process gathered input from persons who represent the broad interests of the community served by the hospital facility, including those with special knowledge and expertise of public health issues The needs assessment data collection methodology was comprehensive and there were no gaps in the information collected Community Health Assessment Planning A series of meetings was facilitated by the consultants and the CHNA oversight committee consisting of leadership from Touro Infirmary and other participating hospitals and organizations This process lasted from March 2015 until August 2015 Secondary Data Comprehensive analysis of health status and socioeconomic environmental factors related to the health of residents of the Touro Infirmary community was completed from existing data sources such as state and county public health agencies, the Centers for Disease Control and Prevention, County Health Rankings, Truven Health Analytics, Community Needs Index (CNI), Healthy People 2020, Prevention Quality Indicators (PQI), and other additional data sources This process lasted from March 2015 until August 2015 (data available upon request) Trending from 2013 CHNA In 2013, Touro Infirmary complete a CHNA The data sources used for this CHNA were the same data sources from 2013, which made it possible to review trends and changes across the hospital service area There were several data sources with changes in the definition of specific indicators, which restricted the use of trending in several cases The factors that could not be trended are clearly defined in the secondary data section of this report Additionally, the findings from primary data (ie , community leaders, stakeholders, and focus groups) are presented when relevant in the executive summary portion The 2013 CHNA can be found online at http://www.touro.com/chnaInterviews with Key Community Stakeholders Touro's CHNA consultant worked closely with the CHNA oversight committee to identify leaders from organizations that included 1) Public health experts, 2) Professionals with access to community health related data, and 3) Representatives of underserved populations (ie , seniors, low income residents, Latino(a) residents, Vietnamese residents, youth, residents with disabilities, and residents that are uninsured) Such persons were interviewed as part of the needs assessment planning process A total of 36 interviews were completed with key stakeholders in the Touro Infirmary community A complete list of organizations represented in the stakeholder interviews can be found in the "Key Stakeholder Interviews" section of this report This process lasted from April 2015 until August 2015 Survey of vulnerable populations Touro's CHNA consultant worked closely with the CHNA oversight committee to ensure that community members, including underrepresented residents, were included in the needs assessment through a survey process A total of 598 surveys were collected in the Touro Infirmary service area, which provides a +/- 2.89 confidence interval for a 95% confidence level A 32-question health status survey was offered in English, Spanish, and Vietnamese The survey was administered by community based organizations providing services to vulnerable populations in the hospital service area Community based organizations were trained to administer the survey using hand distribution Surveys were administered onsite and securely mailed to a third party for tabulation and analysis Surveys were analyzed using SPSS software Identification of top regional community health needs Top community health needs were identified and prioritized by community leaders during a regional community health needs identification forum held on August 5, and 7, 2015 Consultants presented CHNA findings from analyzing secondary data, key stakeholder interviews, and surveys Community leaders discussed the data presented, shared their visions and plans for community health improvement in their communities, and identified and prioritized the top community health needs in the Touro Infirmary community Community leaders identified the following top community health priorities that are supported by secondary and/or primary data 1) Access to health services, 2) Behavioral health and substance abuse, and 3) Resource awareness and health literacy The New Orleans community is very diverse, from the Ninth Ward to New Orleans East and the Garden District The health risks associated with chronic diseases like diabetes and obesity are particularly high among our growing, medically underserved African-American, Hispanic and Vietnamese populations Touro performs community outreach to these groups through our own health programs, participation in community health fairs, partnerships with local community organizations and other grassroots efforts Touro's goal is to help residents learn how to access the care they need and to help them learn to manage their health conditions and live healthier lives</p>

The uninsured rate in Louisiana has been relatively flat following implementation of the ACA. Compared to the rest of the nation, which saw a significant decline in the uninsured rate in 2014 and 2015, the uninsured rate for the nonelderly in Louisiana decreased slightly from 15% in 2013 to 12% in 2015 (Figure 9), but this change is not statistically significant. In Louisiana, many uninsured individuals fell into the "coverage gap" in 2014 and 2015, prior to the adoption of the Medicaid expansion. In addition, while enrollment in Marketplace coverage was slow to take hold, it has grown over time. With Louisiana's implementation of the Medicaid expansion in 2016, it is likely that at the state will see a significant drop in the uninsured rate as people enroll in this new coverage option. Louisiana has the 17th highest diabetes mortality rate in the nation and diabetes is the seventh leading cause for deaths among Louisiana residents. Louisiana is the 5th highest ranked for cardiovascular deaths (source: CDC "State of the "State of Louisiana"). Reducing deaths from circulatory-system diseases is another community need. Touro is working with New Orleans EMS to deliver critical cardiac care and stroke services to these patients. Cancer rates: Cancer is the second leading cause of death in Louisiana, making LA the 7th ranked state in the US for cancer deaths. To address this need, Touro has created a comprehensive cancer care program including a supportive cancer care program providing free support groups and a nurse navigator to help cancer patients and their loved ones in the community free of charge. Touro Rehabilitation Center has added a cancer rehabilitation program, for the rehabilitation of both inpatient and outpatient cancer patients. Patients who are unable to afford the supplies (e.g. lymphedema garment) or therapy session co-pays are assessed and their needs are addressed so that they will not be denied treatment. Touro also offers a Cancer Survivorship Program and support group where cancer patients are able to meet one on one with a survivorship coordinator RN to discuss treatment summaries, follow-up and coordination of care post-treatment.
