X 2	<p>The Organization has adopted Accounting for Uncertainty in Income Taxes. This standard clarifies the accounting for uncertainty in tax positions taken or expected to be taken in a tax return, including issues relating to financial statement recognition and measurement. This standard provides that the tax effects from an uncertain tax position can be recognized in the financial statements only if the position is more-likely-than-not to be sustained if the position were to be challenged by a taxing authority. The standard also provides guidance on measurement, classification, interest and penalties, and disclosure. The tax years ended 2013, 2014, and 2015 are still open to audit for both federal and state purposes. The Organization has processes presently in place to ensure the maintenance of its tax-exempt status its group exemption to identify and report unrelated income to determine its filing and tax obligations in jurisdictions for which it has nexus and to identify and evaluate other matters that may be considered tax positions. The Organization has determined there is no impact on the accompanying financial statements related to the adoption of this standard.</p>
