Part V, Line 5 - Account Input from Persons Who Represent the Community	In late 2014, Tucson Medical Center joined forces with Tucson's neighboring hospitals, as well as the Pima County Health Department and other community stakeholders on the 2015 Pima County Community Health Needs Assessment. The Affordable Care Act requires tax-exempt, nonprofit hospitals to complete a community health needs assessment every three years and to implement strategies to address the needs identified in the report. The resulting 96-page assessment draws from county health rankings, the Arizona Department of Health Services Vital Statistics, Primary Care Area Statistical Profiles and the U.S. Census Bureau. Additionally, community input was included following interviews, focus groups, community forums and a web-based community health survey. Following the completion of the assessment, TMC developed an implementation plan to respond to its findings. If you have specific input on this report that you would recommend TMC consider, please email communications@tmcaz.com. The 2010 Patient Protection and Affordable Care Act requires that nonprofit hospitals conduct a community health needs assessment every three years and adopt an implementation strategy to meet the outstanding community health needs identified in the assessment as a condition of maintaining the institution's federal tax exemption. Tucson Medical Center has elected to prepare this assessment and implementation strategy in fiscal year 2015-16 and will use the document as a planning tool to help create strategic initiatives regarding medical services and community outreach efforts in order to meet critical health needs of members of our community whose health is at risk. Tucson Medical Center would like to thank the community partners who collaborated on the Community Health Needs Assessment, including Banner-University Medical Center, Carondelet, El Rio Community Health Center, Healthy Pima, Northwest Healthcare and the Pascua Yaqui Tribe. It is with much gratitude that we acknowledge the Pima County Health Department for its work in facilitating the joint effort. TMC's Implementation Plan was informed by the Community Health Needs Assessment and the input of stakeholders from throughout the organization in a series of sessions that was facilitated by the TMC Lean Team. The CHNA and the Implementation Plan were reviewed by the TMC Medical Executive Committee and approved by the TMC Board of Trustees. TMC Healthcare also has a proprietary strategy plan that acknowledges and addresses many of the issues identified in the CHNA. As those plans are actualized and implemented, they will formally become part of this plan. TMC's Community Benefit program has a dedicated leader and staff who led the development of the CHNA and Implementation Plan and are accountable for implementing the identified programs. The organization has budgeted dollars committed to sustaining its community benefit efforts. Additionally, community benefit is a critical component of the organization's strategy to remain independent and focused on community need through partnerships, alliances and collaboration.

Form and Line Reference	Explanation
Part V, Line 11 - Explanation of Needs Not Addressed and Reasons Why	Changes in implementation strategy goals Agility trumps rigidity Given the dynamic and complex nature of health care, change is inevitable as we adapt to fluctuations in the health care environment In recalibrating our plans to move forward as new information and opportunities surfaced, TMC did not undertake some of the strategies outlined in the initial implementation plan At the time of the report, TMC was exploring the creation of the Green Valley Medical Center, a 32-bed acute care hospital After due diligence, we determined that the required investment was too much for a community hospital to bear At the time of the report, TMC was planning to develop its own infrastructure that would enhance continuity of care by allowing information to be shared with providers across the continuum, from primary care doctors, to hospitals, nursing homes and rehabilitative facilities After much analysis, it was determined that putting efforts into a statewide exchange system would be more valuable to the community than developing our own internal exchange, which would have had more limited communication power As outlined in the Access to Care section above, TMC continues to be on the leading edge of health care information technology and remains committed to ensuring we have the right tools in place to create a 21st century health care delivery system Palo Verde Behavioral Health The implementation plan stressed Palo Verde Hospitals longstanding history of providing mental health services in the community As outlined in the Mental Health section above, although TMC has long valued the service provided at Palo Verde, we also recognized that selling Palo Verde would allow it to thrive in the hands of a company that specializes in behavioral health services Conclusion As a non-profit, community hospital that is locally governed and celebrating its 70th year of serving Southern Arizona, TMC is proud of its important role in strengthening healthcare throughout the region Whether setting patients on the road to recovery or providing tools to community members to help them retain their good health, TMC is committed to acting with purpose to fill gaps in service and address community needs
