TMC Foundation supports the charitable mission of Tucson Medical Center and is dedicated to improving health and quality of life in our community.

From our annual report to the community

Renovated, expanded Women's Surgery area opens as Phase II begins

The Joel M. Childers, M.D., Women's Surgery Center opened with much excitement in April, 2015, offering women who are undergoing women's surgery compassionate care in an aesthetically pleasing environment that was designed specifically for women.

Phase I of the project helped centralize TM C's Women's Services, which have been spread throughout different areas of the hospital. Consolidating resources and creating a dedicated entry point for services will increase efficiency, enhance privacy and improve quality outcomes. The expanded operating suite features the latest technology and improved workflow. Patients and families now have dedicated waiting areas.

In December 2015, crews broke ground on Phase II of the project, a mix of new construction and renovation for the Labor & Delivery department. Two new Labor & Delivery rooms will be built to include laboring tubs for women who want the safety net of a hospital during delivery, but an experience that feels more like home.

One of the surgical suites used for cesarean sections will be enlarged, and new construction will also take place in triage, which will be a dedicated area with

The entire footprint of the campaign was designed to improve the flow and efficiency for patients, creating a better overall experience.

The project was funded through the ongoing capital campaign, in which the TMC Foundation's goal is \$12.5 million.

Donor spotlight: The National Breast Cancer Foundation

The TMC Breast Health Program participates in numerous outreach events sponsored by TMC and other community partners where breast health is taught and promoted.

One-on-one education is provided to patients at the time of their visit, promoting early detection through screening to the public and physician offices. Thanks to a generous \$50,000 grant from the National Breast Cancer Foundation, or NBCF, underinsured and uninsured women in Southern Arizona have access to mammography screening that may save precious lives.

This funding allowed the TMC Foundation to provide more than 100 digital screening 3D mammograms, which creates multiple images of the entire breast. TMC Breast Health clinicians also have been able to see five patients who required diagnostic mammograms and breast ultrasounds.

TMC's program is frequently the last resort for these women who often do not qualify for any other programs but want a screening mammogram.

TMC caters to Southern Arizona's large Hispanic population in many ways, including staffing a Spanish interpreter at the breast health clinic on days these uninsured patients are scheduled to receive their screening. Additionally, patient education materials are printed in both English and Spanish.

TMC performs close to 4,000 screening mammograms each year. All clinical breast exams, mammograms and ultrasounds are read on site. All diagnostic mammograms and ultrasounds are read at the time of the appointment and patients are aware of their results before leaving the clinic.

With this grant, the NBCF is living its mission of helping women now by providing help and inspiring hope to those affected by breast cancer through early detection, education and support services. Part of their outreach also includes messaging about other good women's health practices such as a healthy diet and maintaining a healthy weight.
