Return Reference	Explanation
Part X, Line 2	The Corporation follows the Financial Accounting Standards Board ("FASB") accounting standard for accounting for uncertainty in income taxes. This standard clarifies the accounting for uncertainty in income taxes recognized in an organization's consolidated financial statements and prescribes a recognition threshold of more-likely-than-not to be sustained upon examination by the appropriate taxing authority. Measurement of the tax uncertainty occurs if the recognition threshold has been met. The standard also provides guidance on de-recognition, classification, interest and penalties, and disclosure. Management has determined that this standard does not have a material impact on the consolidated financial statements.

Return Reference	Explanation
Part I, Line 7	Effective 4/1/16, HHC implemented quality and productivity based incentives for providers. Both plans provided for evaluation on a semi-annual basis. The productivity based incentive plan identified a floor and target by provider type. Compensation was a percentage of salary based on meeting the target and increased incrementally for exceeding the target. The plan dictated that those not meeting the floor could be subject to a salary reduction. The quality plan was based on meeting certain goals that HHC is already focused on for federal program requirements and Pay For Performance initiatives from insurance companies.
