Return Reference	Explanation
Pt V, Line 4	The Organization adopted the recognition requirements for uncertain tax positions as required by generally accepted accounting principles in the United States. Income tax benefits are recognized for income tax positions taken or expected to be taken in a tax return, only when it is determined that the income tax position will more-likely-than-not be sustained upon examination by taxing authorities. The Organization has analyzed tax positions taken for filing with the Internal Revenue Service and the state jurisdiction where it operates. The Organization believes that income tax positions will be sustained upon examination and does not anticipate any adjustments that would result in a material adverse effect on the Organization's financial condition, results of operations or cash flows. Accordingly, the Organization has not recorded any reserves, or related accruals for interest and penalties for uncertain tax positions at June 30, 2017. The Organization's policy is to classify income tax related interest and penalties as operating expenses.
