Part X - FIN 48 Footnote

The Association had adopted the accounting for uncertainty in income taxes as required by the Income Taxes Topic (Topic 740) of the FASB Accounting Standards Codification. Topic 740 requires the Association to determine whether a tax position is more likely than not to be sustained upon examination by the applicable taxing authority, including resolution of any related appeals or litigation processes, based on the technical merits of the position. The tax benefit to be recognized is measured as the largest amount of benefit that is more than fifty percent likely of being realized upon ultimate settlement, which could result in the Association recording a tax liability that would reduce the Associations net assts.
