990 Schedule H, Supplemental Information

Form and Line Reference	Explanation
Schedule H, Part V, Section B, Line 17 Billing and Collection Policy	<p>During tax year 2017, the organization learned via verbal comments of IRS agents at public events that the IRS intends that the "readily obtainable" standard in the 501(r) regulations for the AGB calculation and billing and collection policy is only met if those items are posted to the organization's web site. The organization had interpreted that web posting standard to be a safe harbor after consulting with external counsel and tax advisors, and timely took other steps to make the information readily obtainable. Consequently, the organization does not believe its decision to not post these documents to its web site rises to the level of a failure, nor does it believe the circumstances were either willful or egregious, having otherwise timely taken the steps necessary to attain and continue to maintain compliance with the other requirements related to the billing and collection policy and the AGB, as part of its policies and procedures for ensuring compliance with all aspects of 501(r). However, the organization is making this voluntary disclosure in order to communicate to the IRS the changes it is undertaking in response to the recent IRS informal guidance on this specific point concerning the "readily obtainable" standard, and the fact that the organization has started the work necessary to post its AGB information and billing and collection policy to its web site and will complete those additional postings as soon as reasonably possible. The other web postings required under 501(r) (i.e., those related to the community health needs assessment and the financial assistance policy) were timely completed and continue to remain in place as required. The organization believes its safeguards worked as intended in this case (i.e., the organization has regular communications with a number of external law firms and tax consultants and the timely attention to the recent guidance was supported by the framework of regular access to subject matter experts). These changes are in the process of being incorporated into corporate policies and procedures that apply to the organization.</p>

Form and Line Reference	Explanation
Schedule H, Part I, Line 7 Costing Methodology used to calculate financial assistance	The cost of providing charity care, means-tested government programs, and other community benefit programs is estimated using internal cost data, and is calculated in compliance with Catholic Health Association ("CHA") guidelines. The organization uses a cost accounting system that addresses all patient segments (for example, inpatient, outpatient, emergency room, private insurance, Medicaid, Medicare, uninsured, or self pay). The best available data was used to calculate the amounts reported in the table. For the information in the table, a cost-to-charge ratio was calculated and applied.

Schedule H, Part II Community Building Activities	<p>Extensive research has shown that social determinants, such as poverty level, education level, employment and housing, have significant impact on health outcomes, equal to or greater than the impact of health care, health education and direct health behaviors. Efforts to improve health within our communities must include both traditional community benefit activities that directly address health outcomes as well as community building activities that address some of the underlying factors that help to determine the overall health and well-being of individuals and communities served. An example of community building is the Back to School Program which provides school supplies and back packs for children. Purchasing school items can be a financial burden which affects the mental and physical health of families.</p>

Schedule H, Part III, Line 3 Bad Debt Expense Methodology	<p>The provision for doubtful accounts is based upon management's assessment of expected net collections considering economic conditions, historical experience, trends in healthcare coverage, and other collection indicators. Periodically throughout the year, management assesses the adequacy of the allowance for doubtful accounts based upon historical write-off experience by payor category, including those amounts not covered by insurance. The results of this review are then used to make any modifications to the provision for doubtful accounts to establish an appropriate allowance for doubtful accounts.</p>
