Supplemental Information

Return Reference	Explanation
Part X, Line 2	The University has a tax determination letter from the Internal Revenue Service stating it qualifies under the provisions of Section 501(c)(3) of the Internal Revenue Code (Code) and are exempt from federal income taxes. The University is not classified as a private foundation. As such, the University is subject to federal income taxes only on any net unrelated business income under the provisions of Section 511 of the Code. The University files a Form 990 (Return of Organization Exempt from Income Tax) annually. When these returns are filed, it is highly certain that some positions taken would be sustained upon examination by the taxing authorities, while others are subject to uncertainty about the merits of the tax position taken or the amount of the position that would ultimately be sustained. Examples of tax positions common to Universities include such matters as the following: the tax exempt status of each entity and various positions relative to potential sources of unrelated business taxable income (UBIT). UBIT is reported on Form 990-T, as appropriate. The benefit of tax position is recognized in the financial statements in the period during which, based on all available evidence, management believes that it is more likely than not that the position will be sustained upon examination, including the resolution of appeals or litigation processes, if any.
