990 Schedule H, Supplemental Information

Form and Line Reference	Explanation
Schedule H, Part I, Line 3c Other Factors other than FPG	It is the policy of St. Elizabeth Hospital, Inc. to provide medically necessary health care services to people in the communities it serves, regardless of their ability to pay. Affinity Care financial assistance is granted based upon the patient's inability to pay and to individuals who are uninsured, underinsured, or medically indigent. Affinity Care works in collaboration with other financial (both public and private) assistance programs. This is to ensure holistic wellness of patients by facilitating knowledge of available services and programs for health while practicing good stewardship of funds. Key criteria utilized to determine eligibility for Affinity Care financial assistance includes family size, federal poverty income guidelines and available assets. The available asset test includes consideration of the amount of equity in a home, automobiles, and savings accounts which are considered part of total allowable income when assessing against the federal poverty income guidelines.
Schedule H, Part V, Section B, Line 17 Billing and Collection Policy	During tax year 2017, the organization learned via verbal comments of IRS agents at public events that the IRS intends that the "readily obtainable" standard in the 501(r) regulations for the AGB calculation and billing and collection policy is only met if those items are posted to the organization's web site. The organization had interpreted that web posting standard to be a safe harbor after consulting with external counsel and tax advisors, and timely took other steps to make the information readily obtainable. Consequently, the organization does not believe its decision to not post these documents to its web site rises to the level of a failure, nor does it believe the circumstances were either willful or egregious, having otherwise timely taken the steps necessary to attain and continue to maintain compliance with the other requirements related to the billing and collection policy and the AGB, as part of its policies and procedures for ensuring compliance with all aspects of 501(r). However, the organization is making this voluntary disclosure in order to communicate to the IRS the changes it is undertaking in response to the recent IRS informal guidance on this specific point concerning the "readily obtainable" standard, and the fact that the organization has started the work necessary to post its AGB information and billing and collection policy to its web site and will complete those additional postings as soon as reasonably possible. The other web postings required under 501(r) (i.e., those related to the community health needs assessment and the financial assistance policy) were timely completed and continue to remain in place as required. The organization believes its safeguards worked as intended in this case (i.e., the organization has regular communications with a number of external law firms and tax consultants and the timely attention to the recent guidance was supported by the framework of regular access to subject matter experts). These changes are in the process of being incorporated into corporate policies and procedures that apply to the organization.

Periodically throughout the year, management assesses the adequacy of the allowance for doubtful accounts based upon historical write-off experience by payor category, including those amounts not covered by insurance.
