990 Schedule H, Supplemental Information

Form and Line Reference	Explanation
Part III, Line 3	Essentia Health Sandstone provides both full and partial charity care through its traditional application process Full charity care is a complete write-off of eligible gross hospital and clinic charges while "partial" is a portion of eligible charges Each are determined respectively based on the patient's income in relation to the Federal Poverty Guidelines Essentia Health also recognizes that it is not feasible, or sometimes necessary, for all patients to complete financial assistance applications and provide documentation required through the traditional process Essentia Health Sandstone implemented an alternative documentation and presumptive process using a tool that identifies accounts that automatically qualify for charity care and reclassified those accounts to charity care allowance As a result, we estimate $0 of patient accounts written off to bad debt would qualify for charity care Essentia Health Sandstone is a part of a larger organization, Essentia Health Essentia Health and its member organizations incorporate the cost of bad debt as a community benefit As a tax exempt hospital, we must provide the necessary services regardless of the patient's ability to pay for that care In doing so, Essentia Health makes quality patient care available to all in our community, regardless of their economic means

Part III, Line 8	The costing methodology used in determining the Medicare Allowable Cost reported in the organization's Medicare Cost Report as reflected in the amount reported in Part III, Line 6 The methodology used in determining the reported Medicare Allowable Cost begins with the hospital's general ledger system The costs are obtained from the general ledger and then adjusted and reported in accordance with Centers for Medicare Services (CMS) "cost finding" guidelines as published in their Provider Reimbursement Manual Once the Medicare allowable costs are determined from the hospital's cost report, any costs attributed to subsidized health services, and Medical Education, are removed and reported separately Explanation for any prior year settlements for Medicare-related services in the current tax year Each Essentia Health hospital is required to file a Medicare cost report 5 months after the close of their fiscal year The cost report provides Medicare with information that is used to determine utilization and spending trends but also is used to set future payment rates for most Medicare services If the interim payments paid to a hospital are higher or lower than the filed cost report allowable reimbursement there will be a settlement for that fiscal year This can be due to changes in utilization or cost of providing services for Critical Access Hospitals (CAH) or differences between interim and final payment factors for Disproportionate Share, Bad Debts, or Indirect Medical Education for non-CAH hospitals An estimate for these settlements is recorded at the close of the fiscal year If the estimate varies from the final settlement received 6-7 months after the fiscal year ends then these amounts are recorded as prior year Medicare revenue The extent to which any shortfall reported in Part III, Line 7 should be treated as a community benefit and the rationale for the organization's opinion Essentia Health Sandstone is a part of a larger organization, Essentia Health Essentia Health and its member organizations incorporate the full value of the Medicare shortfall as a community benefit The rationale for the organization's opinion is providing care for the elderly and serving Medicare patients is an essential part of the community benefit standard Medicare, like Medicaid, does not pay the full cost of care and it is likely to get worse Many Medicare beneficiaries are poor and are eligible for Medicaid in addition to Medicare Medicare underpayment must be shouldered by the hospital in order to continue treating the community's elderly and poor These underpayments represent a real cost of serving the community
