Form 990 (2016)

Form 990, Part III, Line 4a:

The Climate Group successfully achieved significant objectives in FY 16/17 - increasing the number of state and regional governments committing to new climate efforts (such as reporting on their emissions), increasing the number of corporates joining our 100% renewable electricity RE100 campaign, launching EP100 as a new corporate campaign in which companies double their energy productivity, and delivering another impactful Climate Week NYC. Highlights of our achievements include:

- States & Regions:** The Climate Group helped to expand the Under2 Coalition for which it serves as the Secretariat. Started by the US State of California and the German State of Baden-Wuerttemberg, the coalition has grown from 135 to 205 subnational governments across 43 countries and 6 continents to date. Signatories to the Under2 MOU commit to limit greenhouse gas emissions to 2 tons per capita or 80-95% below 1990 levels by 2050. The Climate Group, in partnership with CDP, released its Second Annual Compact of States and Regions Report. The Paris Agreement includes the requirement for all 'Parties' to report regularly on their emissions and on implementation efforts under their national climate action plans - or Nationally Determined Contributions (NDCs). The Compact of States and Regions, which incentivizes states, provinces and regions to report on an annual basis, is providing sound and solid lessons on how the temperature goals of the Agreement - staying well below a 2 degrees' Celsius rise and pursuing efforts to limit it to 1.5 degrees Celsius - can be met. This annual report provides analysis, and helps in identifying both areas of success by sub-national governments and where further action is needed. The Compact of States and Regions already brings together 62 states, provinces and regions, representing over 440 million citizens and 17% of the global economy. We continued to facilitate peer-to-peer learning and best-practice sharing between state and regional governments through regular webinars and case studies. Throughout the year we convened meetings of subnational government leaders alongside major climate events including Clean Energy Ministerial (June 2017), Climate Week NYC (September 2016), COP 22 in Marrakech (November 2016). The "Power to Act" report, published during Climate Week NYC 2016, highlighted how sub-national governments need to cooperate to tackle climate change on a planetary scale. In the new international climate change regime, it's not only national policies that matter, but state, regional, and city policies as well. For many countries, meeting their Paris "pledge" will depend on sub-national governments going "farther and faster" than the national government.
- Business Actions:** Our RE100 continued to grow and firmly established itself as one of the leading international campaigns driving corporate demand for renewable energy in FY16/17. During the year, membership grew to 70 companies by the end of June. New US-headquartered members included Microsoft, Mars, and Google. The 2016 RE100 Annual Report found that on average, companies in the campaign were half way to meeting their 100% renewable power targets. EP100 reached the one-year mark. Like RE100, EP100 is a corporate commitment campaign, but in this case businesses make a commitment to doubling their 'energy productivity' over a 25-year period in-line with international best practice. Energy productivity is about producing more goods and services with less energy. EP100 complements RE100, because if companies use less energy, this makes it easier and cheaper to move to 100% renewables - a connection best summed up by the phrase 'Using Better Energy, Better'. By the end of FY16/17, EP100 had secured 13 companies, including leading Indian conglomerate, Mahindra & Mahindra, and US energy efficiency specialists, Johnson Controls. We continued to work closely with our partners in the We Mean Business (WMB) Coalition to communicate the strong support of forward-thinking businesses to ramp up ambitious global climate commitments post-Paris Climate Agreement. Through RE100 and EP100 (both WMB-supported initiatives) and through our communication platforms, we are helping ensure that governments and negotiators understood that businesses are strong supporters of bold climate action. The Climate Group organized two roundtable discussions on 'Accelerating adoption of LED street lighting' for the Utility and Finance sectors, as part of its ongoing global LED city consultation during Climate Week NYC 2016. The discussions focused on incentivizing adoption of LEDs in US cities and utilities and financing city LED projects in developing regions. Summits. On September 19-25, 2016 we held the 8th Annual 'Climate Week NYC'. Taking place just a few months before COP22, Climate Week NYC served as a key moment to continue to push for a strong implementation of Paris Agreement climate commitments. To this end, we brought together leading figures such as US Secretary of Energy, former EPA Administrator and Vice President of Environment, Policy and Social Initiatives at Apple, Premier of Quebec, US Special Envoy for Climate Change, Minister Delegate in Charge of Environment Morocco, and a range of C-suite executives from leading businesses. Climate Week NYC also hosted the launch of National Geographic's second season of Years of Living Dangerously. At an event held at the American Museum of Natural History, more than 800 guests from businesses, governments and environmental organizations gathered to watch the first episode of the new season, as well as an exclusive trailer of the critically acclaimed documentary Before the Flood, produced by Leonardo DiCaprio. Climate Week NYC 2016 reached an estimated global audience of 535 million people, generated over 230 million Twitter impressions, and promoted almost 130 "affiliate events."

Return Reference	Explanation
Schedule C, Part II-A Description of Lobbying Activities	The Climate Group, at times, speaks with legislators on nonpartisan climate-related issues. The organization engages in nonpartisan analysis and research of climate change solutions to educate the public on the effects of a high carbon economy in order for the public to form an independent opinion or conclusion on the matter. In effect, The Climate Group does not actually engage in direct or grass roots lobbying activities but has in fact filed the 501(h) election in case there are years when extensive lobbying occurs.

Return Reference	Explanation
Schedule D, Part X, Line 2 FIN 48 (ASC 740) footnote	The Corporation is exempt from federal and state taxes under Section 501(c)(3) of the Internal Revenue Service Code and Section 23701d of the Delaware revenue and Taxation Code, and is considered by the IRS to be an organization other than a private foundation. In the opinion of management, there is no unrelated business income. Accounting principles generally accepted in the United States of America (U.S. GAAP) prescribes recognition thresholds and measurement attributes for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. Tax benefits will be recognized only if the tax position is more-likely-than-not sustained in a tax examination, with a tax examination being presumed to occur. The amount recognized will be the largest amount of tax benefit that is greater than 50% likely of being realized on examination. For tax positions not meeting the more-likely-than-not test, no tax benefit will be recorded. Management has concluded that they are unaware of any tax benefits or liabilities to be recognized at June 30, 2017 and 2016. The Corporation is no longer subject to examination by U.S. federal taxing authorities and for all state income taxes through 2013. The Corporation does not expect the total amount of unrecognized tax benefits to significantly change in the next 12 months. The Corporation would recognize interest and penalties related to unrecognized tax benefits in interest and income tax expense, respectively. The Corporation has no amounts accrued for interest and penalties as of June 30, 2017 and 2016.
