The Financial Accounting Standards Board (FASB) provides guidance for how uncertain income tax positions should be recognized, measured, disclosed and presented in the consolidated financial statements. This requires the evaluation of tax positions taken or expected to be taken in the course of preparing tax returns to determine whether the positions are more-likely-than not of being sustained when challenged or when examined by the applicable tax authority. Tax positions not deemed to meet the more-likely-than-not thresholds would be recorded as a tax benefit or expense and liability in the current year. For the years ended June 30, 2017 and 2016, management has determined that there are no uncertain tax positions. With few exeptions the Organization is no longer subject to tax examinations by the tax authorities for the years prior to 2014.
