Return Reference	Explanation
PART I, LINE 2	PROCEDURES FOR MONITORING THE USE OF GRANT FUNDS Annually tuition discount expenditures are projected and budgeted for the upcoming budget cycle. Projections are prepared by the Director of Student Administrative Services, delivered to the Director of Budget and submitted for approval to the Executive Vice President of Finance and the Board of Trustees. Various constituencies across campus are "allocated" a certain amount of funding to award to students, within the budgeted amounts. These awards are submitted to the Executive Vice President of Finance for approval and then routed to the Director of Student Administrative Services who then, through the Director of Financial Aid, oversees the packaging of these awards and integration with other financial aid awards to insure that no students with federal financial aid are over-awarded. Since these awards are tuition-based, they are posted to students' accounts each quarter once schedules are locked and total tuition amounts can be verified by the Director of Student Accounts and staff. Quarterly, the Director of Student Administrative Services compares actual expenses to budgeted amounts and alerts the budget manager of any potential overages. The budget is reviewed in each case to make sure overages will not cause fiscal issues. If it appears that they will, adjustments are recommended by the Director of Budget to the Executive Vice President of Finance.

FORM 990 PART III LINE 4A	the college of chiropractic The Mission of the Life University College of Chiropractic, centered on the Vertebral Subluxation Complex, is to educate, mentor and graduate skilled and compassionate Doctors of Chiropractic to be primary care clinicians, physicians, teachers, and professionals, using the University's core life proficiencies as their foundation. Program activities Remediation and retesting program The DCP has identified high fail rate courses within the curriculum that pose challenges for students. As a result, the DCP created a Remediation and Retesting program. The program was initiated in Fall 2016. The program consists of identified courses providing early and often assessments to identify students who are struggling and need intervention in the form of remediation, advising, modification to schedule, and supplemental instruction. Outcomes are compared to previous outcomes for the courses, and compared to courses that have assessments inconsistent with these guidelines. Outcome indicators will also include assessment scores, course pass rates, board scores, student survey results, and instructor feedback. DCP Completion Project The DCP Completion Project is based on the principle that no student will be left behind and the college will track and support every student who is not progressing in the program. In the completion project, the students' progression status is determined by two primary metrics, the quarter in residence and the number of credit hours completed. Student support consists of individualized academic plans and optimum course schedules supervised and tracked by the college administration with the help of specialized professional advisors and faculty advisors. The DCP has determined students who do not continue in the program may drop out without notifying an advisor, faculty member, or college administrator. The completion project will ensure all students who are identified as being at risk of not completing the program within 21 quarters will be contacted to provide additional support and information that will provide every opportunity for the student to complete the program. Student Advisement A strategy to change the current advisement model from a decentralized to a more centralized university model has been developed and is currently being implemented. The university model of advising, in regard to the DCP, is for a more centralized high-touch university model consisting of four Progressive Advising for Student Success (PASS) advisors, three Specialized Professional Advisors (SPA), and two Alternative Admissions Track (AAT) Success Coordinators, faculty advisors/mentors, and clinic advisors. PASS advisors are hired and trained toward specific curricular content students are exposed to in quarters one through five. Then, as cohorts move through the curriculum, DCP faculty advisors, trained with expertise in the DCP curriculum to work with students specifically in quarters six through 10, will be assigned. PASS

FORM 990 PART III LINE 4A	advisors will be required to gather and share data from an early alert program regarding the students academic progress and attendance, and will also be required to have communication with each advisee throughout the quarter to ensure academic engagement. Advisors will be better able to identify and address/resolve any academic or non-academic issues in a timely manner that may result in delayed or abandoned pursuit of the degree. College of Chiropractic Clinic System The mission of the Life University Clinic System is to improve the health and wellbeing of people in the communities we serve by providing chiropractic care and other health services, centered on the Vertebral Subluxation Complex. We will maintain excellence in the educational standards of our teaching clinics, and encourage all constituents of our clinics to actively participate in their own health and wellness care, and to actively participate in health and wellness programs that reach out to others in our communities. Clinical operations incorporate a variety of chiropractic services provided to the general public inclusive of complementary services provided to a range of special populations. The clinic system is composed of several types of clinical experiences. The clinical education and patient care delivery is stratified into three levels. The educational goals and objectives are clearly spelled out for each level, and assessment tools developed to ensure that appropriate competencies are measured and outcomes utilized to improve the clinical program. The Life University Clinic System prepared and executed the implementation of the Electronic Health Records throughout the clinic system. The Electronic Health System was fully implemented throughout the clinic system in 2015. This implementation created a greater consistency for patient care and intern education. It also creates an almost paperless environment due to the limited use of paper forms. Level I Experience The Level I clinic experience includes quarters one through nine and is where basic competencies are developing in an environment where there is close faculty supervision. The majority of patients in a Level I clinic are not expected to be complex cases. Level I Clinic The Campus Center for Health and Optimum Performance provides health care services for the Life University student community and provided over 27,000 patient visits at no charge. The Campus Center for Health and Optimum Performance 1269 Barclay Circle Marietta, GA 30060 Level II Experience The Level II clinic experience includes quarters ten through twelve. Students continue to develop competency and critical thinking skills, and also focus on developing competency in patient management. Although competency development continues, the student now has access to a larger volume and variety of patients with a range of conditions. The outpatient facility provided for over 52,000 patient visits with 50% of the care provided at no charge. Level II Clinic
