Schedule H, Part V, Section B, Line 17 Billing and Collection Policy	During tax year 2017, the organization learned via verbal comments of IRS agents at public events that the IRS intends that the "readily obtainable" standard in the 501(r) regulations for the AGB calculation and billing and collection policy is only met if those items are posted to the organization's web site. The organization had interpreted that web posting standard to be a safe harbor after consulting with external counsel and tax advisors, and timely took other steps to make the information readily obtainable. Consequently, the organization does not believe its decision to not post these documents to its web site rises to the level of a failure, nor does it believe the circumstances were either willful or egregious, having otherwise timely taken the steps necessary to attain and continue to maintain compliance with the other requirements related to the billing and collection policy and the AGB, as part of its policies and procedures for ensuring compliance with all aspects of 501(r). However, the organization is making this voluntary disclosure in order to communicate to the IRS the changes it is undertaking in response to the recent IRS informal guidance on this specific point concerning the "readily obtainable" standard, and the fact that the organization has started the work necessary to post its AGB information and billing and collection policy to its web site and will complete those additional postings as soon as reasonably possible. The other web postings required under 501(r) (i.e., those related to the community health needs assessment and the financial assistance policy) were timely completed and continue to remain in place as required. The organization believes its safeguards worked as intended in this case (i.e., the organization has regular communications with a number of external law firms and tax consultants and the timely attention to the recent guidance was supported by the framework of regular access to subject matter experts). These changes are in the process of being incorporated into cor

Expense Methodology	The provision for doubtful accounts is based upon management's assessment of expected net collections considering historical experience, economic conditions, trends in healthcare coverage, and other collection indicators. Periodically throughout the year, management assesses the adequacy of the allowance for

doubtful accounts based upon historical write-off experience by payor category, including those amounts not covered by insurance. The results of this review are then used to make any modifications to the provision for doubtful accounts to establish an appropriate allowance for doubtful accounts.
