990 Sch D Part V Line 4	The endowment funds of Memorial Hermann Health System consist of permanent endowment funds obtained from donor initiatives for charitable contributions through last will and testament bequests. The permanent funds consist of donations and investment income for which the donor's stipulations restrict the Foundation to using only the income resulting from the investment of the donation on a total return basis. The assets of the permanent funds income may only be used to support the charitable exempt operations, programs and purposes of Memorial Hermann Health System through the purchase of supplies, equipment, and other expenditures necessary for the performance of those operations and programs.

Supplemental Information

Return Reference	Explanation
990 Sch D Part X Line 2	Memorial Hermann Health System does not have an annual financial audit conducted. The financial accounts of the Health System are included in the consolidated financial statements of Memorial Hermann Health System entities and its related affiliates and are audited by an independent public accounting firm. The paragraph included in the last issued audited financial statements of the Health System was: "The Health System and certain other affiliates are Texas not-for-profit corporations and have been recognized as tax-exempt pursuant to Section 501(c)(3) of the Internal Revenue Code. The Health System owns certain taxable subsidiaries and engages in certain activities that are unrelated to its exempt purpose and, therefore, subject to tax. Management annually reviews its tax positions and has determined that there are no material uncertain tax positions that require recognition in the accompanying consolidated balance sheets. The tax returns are subject to Internal Revenue Service (IRS) review for three years subsequent to the dates they are filed. The Health System has net operating losses (NOL) tax carryforwards that will expire between 2019 and 2037. Due to the age of these NOLs, and the fact that management is uncertain that the full amount of the NOLs will be realized in the future, no deferred tax asset has been recorded."

990 Schedule H, Supplemental Information

Form and Line Reference	Explanation
990 Sch H Part III Sec A Line 4	Bad Debt footnote Patient accounts receivable are reported net of estimated allowances for contractual allowances, bad debt, and other discounts. The Health System's recorded allowances for bad debt are based on expected net collections, after contractual adjustments, primarily from patients. Management routinely assesses these recorded allowances relative to changes in payor mix, cash collections, write-offs, recoveries, and market conditions. Unpaid accounts are written off as bad debts upon reaching delinquent status. Charity care accounts are written off as identified or qualified under the Health System's charity care policy. The Health System's concentration of credit risk with respect to patient accounts receivable is limited due to the diversity of patients and payors. At June 30, 2017 and 2016, the allowance for bad debt was \$702,890,000 and \$735,260,000 respectively. Noted on pages 10-11 in Audited Financials

990 Sch H Part V Sec B Line 5	While social and epidemiological data can provide a helpful portrait of a community, it does not tell the whole story. It is critical to understand people's health issues of concern, their perceptions of the health of their community, the perceived strengths and assets of the community, and the vision that residents have for the future of their community. Secondary data was supplemented by focus groups and interviews. In total, 11 focus groups and 28 key informant discussions were conducted with individuals from MH Texas Medical Center's community from October 2015 through February 2016. Focus groups were held with 93 community residents drawn from the Greater Houston community representing the population segments noted below. Focus group and interview discussions explored participants' perceptions of their communities, priority health concerns, perceptions of public health, prevention, health care services, and suggestions for future programming and services to address these issues. Focus Groups consisted of the following population segments: Adolescents (15-18 years old), Parents of preschool children (0-5 years old), Seniors (65+ years old) (two groups), Spanish-speaking Hispanic community members (conducted in Spanish), English-speaking Hispanic community members, Asian-American community members, Low-income community members from urban area, Low-income community members from suburban area, Low-income community members from rural area, Community members of moderate to high socioeconomic status. Key informant discussions were conducted with individuals representing the community. Key informants represented a number of sectors including non-profit/community service, city government, hospital or health care, business, education, emergency preparedness, faith community, and priority populations (e.g., low-income urban residents representing the community).
