Name: Computer History Museum

Supplemental Information

Return Reference	Explanation
Part III, Line 1a	<p>The Museum's collections are made up of artifacts of historical significance held for educational, research, scientific, and curatorial purposes. Some items are in the process of being catalogued. The collections are subject to a policy that requires proceeds from the sale of any collection item to be used to acquire other items for the collections. The accessioned items in the collection undergo a rigorous review process with approval by a subcommittee of the Board of Trustees prior to deaccessioning. The process is in compliance with appropriate Museum standards and codes. To date, the collections have been acquired primarily through donations and are not recognized as assets on the statements of financial position. Purchases of collection items are recorded as decreases in unrestricted net assets in the year in which the items are acquired or as temporarily restricted net assets if the assets used to purchase the items are restricted by donors.</p>
