## 990 Schedule H, Supplemental Information

Form and Line Reference	Explanation
Part III, Line 2	Discounts, charity care, and bad debt expense are accounted for as reductions to revenue. Bad debt expense on patient accounts would be identified as any balance on the account, less any previous payments and discounts, that has aged and is absent of any payments. If, during the collection process, it becomes known that the patient qualifies for charity care, the amounts included within bad debt expense would be reclassified to charity care.

990 Schedule H, Supplemental Information

Form and Line Reference	Explanation
Part III, Line 3	Clearwater Valley Hospital and Clinics, Inc applied a high-level, conservative analytic review by multiplying the ratio of charitable allowances to gross patient revenue against bad debt expense to arrive at an approximation of charity care that resides in bad debt Clearwater Valley Hospital and Clinics, Inc is a part of a larger organization, Essentia Health Essentia Health and its member organizations incorporate the cost of bad debt as a community benefit As a tax exempt hospital, we must provide the necessary services regardless of the patient's ability to pay for that care In doing so, Essentia Health makes quality patient care available to all in our community, regardless of their economic means

990 Schedule H, Supplemental Information	
Form and Line Reference	Explanation
Part III, Line 4	Page 11 of the audit contains the footnote describing the organization's bad debt expense

**990 Schedule H, Supplemental Information**

Form and Line Reference	Explanation
Part III, Line 8	<p>The costing methodology used in determining the Medicare Allowable Cost reported in the organization's Medicare Cost Report as reflected in the amount reported in Part III, Line 6. The methodology used in determining the reported Medicare Allowable Cost begins with the hospital's general ledger system. The costs are obtained from the general ledger and then adjusted and reported in accordance with Centers for Medicare Services (CMS) "cost finding" guidelines as published in their Provider Reimbursement Manual. Once the Medicare allowable costs are determined from the hospital's cost report, any costs attributed to subsidized health services, and Medical Education, are removed and reported separately. Explanation for any prior year settlements for Medicare-related services in the current tax year. Each Essentia Health hospital is required to file a Medicare cost report 5 months after the close of their fiscal year. The cost report provides Medicare with information that is used to determine utilization and spending trends but also is used to set future payment rates for most Medicare services. If the interim payments paid to a hospital are higher or lower than the filed cost report allowable reimbursement there will be a settlement for that fiscal year. This can be due to changes in utilization or cost of providing services for Critical Access Hospitals (CAH) or differences between interim and final payment factors for Disproportionate Share, Bad Debts, or Indirect Medical Education for non-CAH hospitals. An estimate for these settlements is recorded at the close of the fiscal year. If the estimate varies from the final settlement received 6-7 months after the fiscal year ends then these amounts are recorded as prior year Medicare revenue. The extent to which any shortfall reported in Part III, Line 7 should be treated as a community benefit and the rationale for the organization's opinion. Clearwater Valley Hospital and Clinics, Inc. is a part of a larger organization, Essentia Health. Essentia Health and its member organizations incorporate the full value of the Medicare shortfall as a community benefit. The rationale for the organization's opinion is providing care for the elderly and serving Medicare patients is an essential part of the community benefit standard. Medicare, like Medicaid, does not pay the full cost of care and it is likely to get worse. Many Medicare beneficiaries are poor and are eligible for Medicaid in addition to Medicare. Medicare underpayment must be shouldered by the hospital in order to continue treating the community's elderly and poor. These underpayments represent a real cost of serving the community.</p>

**990 Schedule H, Supplemental Information**

Form and Line Reference	Explanation
Part III, Line 9b	<p>The policies and procedures for internal and external collection practices take into account the extent to which the patient qualifies for Essentia Health's Financial Assistance Policy (FAP) and financial assistance, a patient's good faith effort to apply for a governmental program or for financial assistance from Essentia Health, and the patient's good faith effort to comply with his/her payment agreements. The organization offers extended payment plans to eligible patients and will not impose liens on primary residences nor report patients to a credit rating agency for outstanding patient bills. The organization will not charge a patient gross amount of charges for any uninsured treatment. Uninsured discounts will be applied to the gross charges prior to any financial assistance or other discounts. At any time the organization recognizes that a patient may be eligible for State or Federal programs, a representative will assist the patient in obtaining information about these programs or provide contact information for these programs. The organization contracts with an outside patient advocacy agency, which may provide assistance to the uninsured patient in applying to certain State and Federal programs. At any stage of the patient experience and up through the collection process, the patient may express a concern that they are unable to pay their bill in full or meet the payment plan requirements. At that time, the patient will be given every opportunity to complete and submit an application for financial assistance. The organization trains its outside debt collection agencies and attorneys about the FAP and how a patient may obtain more information about the FAP or submit an application for financial assistance. The organization requires its outside collection agencies and attorneys to refer patients who may be eligible for financial assistance to Essentia Health. If a patient has submitted an application for financial assistance after an account has been referred for collection activity, the organization and its outside debt collection agencies suspend all collection activity until the patient's financial assistance application has been processed and Essentia Health has notified the patient of its decision.</p>

Part VI, Line 6	<p>Affiliated health care system Clearwater Valley Hospital and Clinics, Inc. is part of Essentia Health, a fully integrated health system with 15 hospitals, 75 clinics, six long-term care facilities, three assisted living facilities, three independent living facilities, five ambulance services, and one research institute in four states: Minnesota, Wisconsin, North Dakota and Idaho. Essentia Health serves a predominantly rural population whose median incomes generally fall below averages of the states where they live. The presence of our clinics and hospitals ensures that people with few economic resources do not have to drive an hour or more to receive basic (and in some cases lifesaving) medical care. In addition to staffing hospitals and clinics in federally recognized underserved areas, Essentia Health supports the health of communities through active outreach programs that bring oncologists, cardiologists, neurologists, and others into small hospitals and clinics. Essentia Health's size and integrated structure also allow the organization to extend services like chemotherapy, congestive heart failure management, wound care, and hospice care to smaller communities. Patients are able to travel seamlessly between Essentia Health's smaller community clinics and its larger specialty care centers thanks to significant investments in electronic health records (EHRs). Every Essentia Health hospital and clinic is linked to this system, allowing clinicians to share everything from lab results and radiology images to notes on clinic visits, hospital stays, and services like physical rehabilitation. The EHR is also an increasingly valuable tool for patients and their families, thanks to MyHealth, which offers patients secure, 24/7 online access to their medical record. MyHealth also allows patients to contact their physician or clinic, schedule appointments, and order medication refills. These services are all offered at no cost to patients and their authorized family, friends, and caregivers. Essentia Health also promotes the health of all of its communities through adherence to evidence-based best practice standards and clinical quality goals designed to ensure that patients receive the same high standard of care at any Essentia Health hospital or clinic. The Essentia Institute of Rural Health (Institute) actively supports community health through its translational and health services research with a primary focus on the needs of rural Americans. The Institute also sponsors a number of conferences and other educational events, open to all medical professionals in the region, to ensure that rural clinicians have access to current medical education and training close to home. Essentia Health's hospitals and clinics play additional roles in promoting health within their communities. Each of Essentia Health's 15 hospitals conducts a community health assessment to determine the unique health needs of community residents. These assessments, which are based on input from a broad range of community residents and stakeholders, are the basis for action plans aimed at addressing the community's most pressing health needs. Most recently, topics of concern have included eliminating social and economic barriers to health and wellness, improving mental health services and awareness, and addressing obesity and creating opportunities for fitness. These issues are then addressed through collaboration with private businesses, government agencies, and other non-profits. Two of the most prominent collaborations currently are Crow Wing Energized and Cass County Energized, joint public-private partnerships aimed at improving the overall health status of these counties through coordinated programming aimed at lifestyle issues ranging from exercise to healthy eating. In addition to various types of in-kind assistance, the coordinators of these programs receive 50 percent of their compensation from Essentia Health. In an effort to help some of our communities' oldest and frailest residents remain at home and out of the hospital or nursing home, Essentia Health has launched community paramedic programs in Fargo, North Dakota, as well as Brainerd, Ada, and Detroit Lakes, Minnesota. Paramedics make house calls to patients who have been identified as at risk for emergency department visits. During the calls, they take vital signs, assess for possible health and safety risks, and determine if patients may benefit from additional community resources. Essentia Health employees contribute directly to the health and wellness of their communities by volunteering in programs ranging from Habitat for Humanity to United Way food and clothing drives. They are active fundraisers for health-related organizations in their communities, like local chapters of the American Heart Association and March of Dimes. Essentia Health encourages and supports these volunteer efforts in a variety of ways, including sponsorships, financial contributions, and volunteer recognition.</p>
