CONSERVATION AND STEWARDSHIP Biodiversity Conservation - Working with coastal communities, marine resource users, conservation organizations, and government, QLF encourages local communities to take an active role in managing natural resources, promoting initiatives to secure sustainable development, and participate in conservation education and outreach. The 2017 Biodiversity Conservation Program, managed in Massachusetts and directed in Eastern Canada, includes these projects: Piping Plover Conservation (Southwestern Newfoundland), Shorebird and Seabird Conservation (The Great Northern Peninsula of Newfoundland, Quebec North Shore, Gulf of St. Lawrence), Stewardship of Endangered Marine

**Form 990, Part III, Line 4b:**

LEADERSHIPGlobal Leadership Network - QLF's Network of Alumni is named the Global Leadership Network or GLN and consists of more than 5,000 individuals and partner organizations. The GLN has grown exponentially over more than five decades to include former Volunteers, Interns, Scholarship recipients, Sounds Conservancy Fellows, International Fellows of QLF's Region-Region Conservation Exchange Programs and leaders from regional partner organizations. QLF Alumni represent seventy-five countries in our home region (New England and eastern Canada), and Europe, Central and Southeast Europe, Latin America and the Caribbean, the Middle East, North Africa, and the Gulf States, and Southeast Asia. In 2017, Staff and Consultants have completed the mapping of Alumni worldwide and have constructed an interactive website, the Global Leadership Network Online or GLN Online, which allows Alumni access to set up an account, post papers and research, network and convene online. Also posted on the newly constructed GLN Online are articles dozens of articles that highlight the accomplishments of Alumni worldwide. And Staff have coordinated teams of Alumni Consultants tasked to address critical conservation issues in rural communities worldwide. The Leadership Program - Established to provide training and experiential learning for Volunteers (high school students) and Interns (university undergraduate and graduate students), the 2017 Leadership Program directed and managed two-dozen Internships corresponding with the following programs managed in Massachusetts to include Biodiversity Conservation, Communications, Global Leadership Network, Middle East Conservation Exchange Program, Southeast Asia Conservation Exchange Program, The Second QLF Alumni Congress, and The Sounds Conservancy (a marine research program along the Sounds and coastal waters of Southern New England and New York). The Scholarship Program - QLF Management and Staff directed The Scholarship Program, which provides supplemental financial support to university students in our home region. A Scholarship Directory is revised each year and documents the students, academic affiliation, and field of academic study.

**Form 990, Part III, Line 4c:**

SPECIAL PROJECTS Special Project Youth Conservation Leadership - QLF staff and consultants directed a multi-year program, Youth Conservation Leadership, to train the next generation's leaders and practitioners. This program is managed from QLF Headquarters in Massachusetts. Each year, staff and consultants lead dozen workshops in environmental education for an average of 300 youth in communities along the Great Northern Peninsula of Newfoundland, Southern Labrador, and the Quebec North Shore. The program is designed to share conservation knowledge, skills, experience and expertise on local and regional conservation issues. Workshops are designed to provide practical information and skills to identify seabirds and sea ducks, monitor marine species at risk, address impacts of climate change in-region, and the stewardship of natural resources and cultural heritage.

Special Project Business Plan, QLF Global One of the 2017 special projects was a Business Plan established for QLF Global, a new global conservation consulting program. Consulting assignments promote innovative solutions to shared local and regional conservation challenges worldwide that result in measurable, beneficial social and environmental return on impact. QLF Global regional consulting teams draw from QLF's Alumni base (approximately 5,000 representing 75 countries). Tapping this highly diverse knowledgebase, QLF Global is able to staff a broad range of projects. Binding QLF's programs together is its commitment to leadership development through community service, community-based conservation, and stewardship of natural resources and cultural heritage. The QLF Global program is also an opportunity for QLF to amplify its mission, vision, and values with potential access to new, diversified sources of funding to support growth.

Special Project QLF Global - In 2017, QLF launched QLF Global projects in-region and worldwide that promote innovative partnerships and solutions that advance successful conservation outcomes and strengthen a global commitment to caring for our environment. QLF Global projects are managed by QLF senior staff for assignments with non-governmental organizations and government agencies in-region and worldwide. As an example, QLF Senior Vice President chairs a Specialist Group of the World Commission on Protected Areas on private approaches to conservation and nature stewardship. In 2016 QLF introduced an official resolution for all IUCN members - which includes most governments - to support privately protected areas (PPAs). The resolution also called for global guidance on PPAs. Accordingly, in 2017, the specialist group led by QLF Senior Vice President began an extensive process to write the Guidelines for Privately Protected Areas for the IUCN. (This project would continue into the following year.)

Special Project Research & Development, Conservation Exchange Programs QLF Management explored new conservation exchange programs to be directed in the following year to include an exchange program on Biodiversity Conservation for Environmental leaders from Mongolia to New England, and an exchange program on Community-based Conservation for Environmental leaders from Israel to New England, and an exchange program on the Great Flyways to take place along the Red Sea/Rift Valley Flyways.

Part X, Line 2	<p>The organization accounts for the effect of any uncertain tax positions based on a "more likely than not" threshold to the recognition of the tax positions being sustained based on the technical merits of the position under scrutiny by the applicable taxing authority. If a tax position or positions are deemed to result in uncertainties of those positions, the unrecognized tax benefit is estimated based on a "cumulative probability assessment" that aggregates the estimated tax liability for all uncertain tax positions. The organization has identified its tax status as a tax exempt entity and its determination as to income being related or unrelated as its only significant tax position, however, the organization has determined that such tax positions do not result in an uncertainty requiring recognition. The organization is not currently under examination by any taxing jurisdiction. The organization's Federal and state tax returns are generally open for examination for three years following the date filed.</p>
